

ATIN-AMERICAN ISSUES CLARIFIED BY COOLIDGE

Protection of Life and Not Politics
Forms Purpose in Nicaragua;
Mexican Fair Play is Aim

BY KYLE D. PALMER
Times Staff Correspondent

WASHINGTON, Jan. 18. (Exclusive)—Those who talked with President Coolidge at the White House today with regard to Mexico and Nicaragua came away with their thoughts on these subjects clarified. Anyone who might have entertained a notion that the President has compromised with his own policies or is prepared to recede from any position he has taken would have had all such theories dissipated as a result of the conversation in the executive office.

President Coolidge sees nothing complex either in the attitude of the United States toward the neighboring republics or in the situation existing in the two countries. His own administration seeks only to guard the lives and property of American citizens living outside of the borders of this country, and beyond that policy this government will not go.

MEXICAN ATTITUDE

The Mexican problem, in the opinion of the President, actually has no intrinsic aspect, as it reduces itself to the simple question of whether the property of American citizens in Mexico is to be taken from them without due payment, in other words, confiscated. President Coolidge indicates that such confiscatory procedure is the thing to which this nation objects and the thing it is trying to prevent.

In the matter of Nicaragua, preservation of American lives and property, not the establishment of any form of government at the head of the local government there, is the objective. In the broader aspect of the administration policy of safeguarding American interests, this government is fulfilling its obligations self-imposed by the Monroe Doctrine and is extending protection to the lives and property of the citizens of other governments.

Attempts to restore domestic tranquility in Nicaragua have been purely incidental to the first objective. The President is convinced, however, that what the United States has done in Nicaragua already has been of immeasurable benefit. Not only has the present situation in Nicaragua been prevented from becoming a greater degree of domestic turmoil and a larger loss of American property, but it also has alleviated much suffering among the combatants on each side.

AID GIVEN WOUNDED
American forces with the naval contingent, for example, have been able to render medical and surgical aid to the wounded that otherwise would have been denied them through lack of such facilities of their own. This aid has been extended without regard to the military allegiance of the disabled.

In addition to all of this, the President is firmly convinced that Nicaragua, and the lives and property of its citizens, would have suffered far more had not Admiral Latham's men landed, with the inevitable result that huge damage claims would have been piled up against the taxpayers of the country.

It developed at the White House today that the President is not profoundly interested either in the personality of President Diaz, whose government has been recognized by this country, or in President Diaz's proposals for a compromise with the revolutionary liberal party. Such proposals, President Coolidge thinks, constitute a purely domestic question. This country, it is evident, is not so much concerned over the political interplay of contending factions as it is over the attainment of the prime requisite, namely, the restoration of peace and order.

BETTER FITTED
"It has become evident that the United States has not supported the Diaz government because it loves that government more than it does the right one headed by General Buena Vista. The Diaz government has the better constitutional authority, is the

more fitted to govern, and is the more just to the people of Nicaragua."

YUCAIPA, Jan. 18. (Exclusive)—Praying President Coolidge and his sturdy associates for their successful efforts in bringing about peace in Mexico, citizens of Yucaipa, in conference at the Congregational Church yesterday, forwarded an appeal to President Coolidge, Secretary Kellogg and California Representatives at Washington, requesting that this government "assure the people of Latin America of our sincere purpose only to aid them and to maintain the ideals of international peace, which our country has consistently proclaimed."

Yucaipa citizens, many of whom have made a careful study of the situation existing between the United States, Nicaragua and Mexico, said that the facts regarding the legislation of protection of American lives and property in Mexico and Nicaragua be ascertained by full investigation, and that if an irreconcilable situation is found to exist, it be submitted to The Hague or some similar tribunal.

"IMPERIALISM"
WAR CRY RAISED ANEW
MEXICO CITY, Jan. 18. (P)—The Central Union of American and Anti-Union Spaniards, a society of Spaniards, has sent messages to union-leader leaders, the newspapers and various social and political organizations throughout the world, declaring that "Latin American peace is threatened by the Yankee imperialism."

Senator Heflin here interrupted the Missouri Senator and denied he had prejudged the religious issue. "You brought it on the floor of the Senate," he shouted. "Your voice rolled and thundered from the chamber until the old water logs in the Potomac bobbed up and down in the river."

"Let the Senator go ahead," Heflin shouted. "I shall have something to say when he finishes."

"Oh, I know you will," Reed fired back, and the rivers will flow on and on, days without end, the crowded chamber. Warning up to a stirring peroration, with one vigorous gesture he jerked his chair and into the waste basket.

Senators Randall of Louisiana and Senator Robinson of Arkansas, both Catholics, also took Senator Heflin to task and the Democratic leader, Senator Robinson of Arkansas, expressed regret that religious issue had been brought into the Senate.

Senator Robinson of Arkansas, leaving over Heflin's desk, "You are wrong. The Knights of Columbus never intended war."

WALSH PROTESTS
Senator Walsh, Democrat, Massachusetts, himself a Catholic, entered a protest against the insinuation of "loyalty" of the Roman Catholic church and that her members are

not to be trusted. "The Roman Catholic church is the most loyal and patriotic of churches," he declared.

FUR COATS BAD AS COURT GARB

Judge Glances at Expense
Wrap and Knocks \$25
of Allowance

SAN FRANCISCO, Jan. 18. (Exclusive)—Fur coats will not be worn by women who are presented at court this season. Superior Judge Cahanias has set the new style.

It came about when Mrs. Faith Catherine Koster presented herself for \$75 a month alimony pending trial of a divorce suit. The court looked penetratingly at the coat she was wearing and promptly knocked off a month of the request. Koster, following the glance of the judge, thought quickly and jumped to his feet with a plea that his wife's coat cost so much money he was almost broke.

"Reduce the order \$10 more," remarked the judge. "Next."

Review of Day in Congress

The Senate rejected the Lau-
anne treaty.

The House voted for an army
of 118,750 men.

The independent offices ap-
propriation bill passed the Sen-
ate.

Farm-relief hearings were be-
gun by the Senate Agriculture
Committee.

Frank L. Smith announced
he will present his credentials
tomorrow as Senator from Illi-
nois.

Representative Garrett of
Tennessee predicted action to-
morrow on the Democratic tax-re-
duction bill.

The Nicaraguan-Mexican sit-
uation flared up again in the
Senate today, as the Democratic
leader, proposed arbitration
of the oil-land dispute.

CLAP GIVEN TO TURKEY

Senate Rejects
Lausanne Pact

Administration Lacks Six
Votes of Two-thirds to
Necessary to Ratify

Defeat of Treaty Results in
Lack of Protection for
American Interests

WASHINGTON, Jan. 18. (P)—After several weeks of intermittent discussion the Senate today rejected the Lausanne Treaty to re-establish diplomatic and commercial relations with Turkey.

The vote, 50 for ratification to 34 against, or 6 less than the necessary two-thirds, showed the Republicans solid for the treaty and the Democrats standing as a unit in opposition.

REBELLIONS DYING OUT

Mexicans Press Punitive War

New Charges Say Episcopate Has Fostered Revolt as Catholics' Protest

Archbishops Still Missing; Jimenez Believed Hiding in Hills With Aides

MEXICO CITY, Jan. 18. (P)—Federal army detachments today continued a vigorous campaign against rebels and bandits in numerous parts of Mexico, while the War Department stated that the sections in the States of Jalisco and Durango, where the uprisings have been most severe, rapidly are being pacified.

The government, through Gen. Jose Alvarez, personal chief of staff to President Calles, reiterated its charges that the Catholic episcopate is responsible for the revolutionary movement. This the episcopate has denied categorically.

The movements of two of the most outstanding figures in the Mexican episcopate were surrounded by mystery tonight. The whereabouts of Archbishop Diaz of Tabasco has been unknown ever since Guatemala severed relations with Mexico last year because of a law prohibiting the entrance of Jesuits into the country.

After the Mexican government had ordered him deported because of alleged activity against the government in the present religious controversy.

Archbishop Francisco Orozco y Jimenez of Guadalajara for the third time is a refugee in Mexico as an asserted leader in a rebellious movement. The archbishop, who is 40 years of age, first was involved in June, 1911, when he underwent two years of exile in the United States.

He issued a pastoral letter on his return, which resulted in a second charge of rebellion and his subsequent flight into the country, where the inhabitants of various towns gave him shelter.

His pursuit ended when President Calles called the troops back after the capture of the archbishop in the State of Jalisco, probably by a number of his followers. However, it has no further substantiation of the reports received yesterday that the archbishop actively is at the head of a rebel army in the field.

Several thousand federal troops are being moved from Sonora to Jalisco because the authorities believe that the Yaqui uprising in the former State is well under control and that the soldiers are needed more in the central States against the "Catholic rebellions."

The government's policy of distributing arms to the agrarian movement, which today is an editorial, the agrarians, who demand land under the government's policy of dividing the estates among the people, often have acted in armed bands and taken possession of property by force. Unrest is expressed in the form of a religious and political movement, which is being organized in extensive efforts to disarm the agrarians, who, at the present time, are being armed again by the government for the purpose of giving combat to the "Catholic rebels." Some fear is expressed that the agrarians, when again in possession of arms, may turn bandits on their own account.

With Calles were Father Crescencio Cruz, Father Manuel Lora Rosendo and Father Casterio Delgado. The four were arrested in Merida, Yucatan, on charges of violating the religious laws and were ordered deported after being held in prison for three days.

Father Caballero was a professor of biology at Boston College from 1912 to 1914, and held the same position with Fordham University from 1916 to 1925. He is a naturalized American having been born in Cuba and educated in France and Spain.

Requests that Father Caballero be allowed to communicate with the American Consul after his arrest were ignored, he said, by the Governor of Yucatan. An injunction barring the deportation was treated in like manner, the priest declared.

"There was not the faintest semblance of a trial or hearing of any sort accorded me, or my fellow-prisoners," Father Caballero said.

CHURCH WORKERS TOLD TO OBEY LAW

NEW YORK, Jan. 18. (P)—Presbyterian missionaries and church officials in Mexico were instructed today to "observe the law in all phases of their work and conform with legal requirements in the method of ownership and administration of church properties," in a cable from the board of foreign missions of the Presbyterian Church.

ELECTORAL WORK IN MEXICO GIVEN UP

MEXICO CITY, Jan. 18. (P)—Campaign activities looking to the Presidential election of 1928 will be abandoned for the present in view of the disturbed domestic situation.

This decision is announced by the Alliance of Socialist Parties, which has been working for several months in the interests of former President Obregon. The Agrarian party also has forbidden its members to participate in further electoral activities at this time.

HEARING DATE SET ON GAS RATE ARGUMENTS

SAN FRANCISCO, Jan. 17. (P)—The State Railroad Commission today set February 9, at 10 a. m., as the time for a hearing in Los Angeles on oral arguments against the commission's recent order denying a petition for increasing the rates on mixed gas in the Los Angeles region.

CHINA WAR LOSSES HEAVY

Hundred Villages Depopulated as Scores of Men, Women and Children Die in Firing

POOCHOW, Jan. 18. (P)—The Cantonese war machine that rolled over Fukien Province in the southern campaign to control all China caused severe suffering to civilians, who still are counting their losses.

From the district south of Poochow, which the heaviest fighting was doing, accounts were received of the virtual depopulation of nearly 100 villages, which had contained about 70,000 inhabitants. Here the northern troops were billeted while they awaited the southern onslaught, and their domineering and cruel tactics caused nearly the whole population to take refuge in neighboring hills or in the city of Poochow. The refugees told stories of many summary executions and mutilations of civilians.

In villages the townspeople rose against their northern "defenders" and joined with bandit groups of the district to attack the soldiers. The villagers were killed in a battle in which twenty soldiers also died.

Civilians also suffered heavily in the actual clashes of the rival armies. Men, women and children were killed by combatants' bullets, houses were fired and wrecked, and crops were ruined by soldier vandals when supplies were not readily forthcoming.

BRITISH CRUISER SAILING FOR SHANGHAI

VALETTA (Malta) Jan. 18. (P)—The first British cruiser squadron will sail tomorrow for Shanghai, under command of Rear-Admiral W. H. D. Boyle. The light cruiser Dauntless is being left behind, but will join the squadron later.

The hospital ship Maine will sail for China as soon as she is taken out of dry dock.

ENGLAND WILL SEND MARINES TO CHINA

LONDON, Jan. 18. (P)—Public perplexity over the seeming discrepancy of the extensive naval preparations

consider the "withdrawal" from the six-State compact.

UTAH NULLIFIES PACT ON RIVER

(Continued from First Page)

porting the most economical, efficient and feasible method of water control or prevention of floods, use of water for domestic and irrigation purposes and for the production of hydroelectric power.

REPORT IN YEAR

"The board shall consider flood control in its widest sense, not only through the construction of a dam or dams in the stream but also by the use of other measures which may be considered necessary before or after the construction of a dam or dams proposed. The board also is authorized and directed to consider and recommend the most feasible and economical method of water control in its judgment will be best adapted for the purposes mentioned.

The board shall make a report to the legislature not later than one year after date of appointment.

"Sec. 2. That \$100,000 is hereby authorized to be appropriated out of the treasury to enable the President to carry out the provisions of this resolution and said sum when appropriated shall be available for the compensation of the engineer and any other employees not already in the government service and for the traveling and other necessary expenses of all members of the board, officers and employees.

Commenting on the fact that many Senators have come to him with requests from chambers of commerce, banks and generally those related in one fashion or another with power companies denouncing the Swing-Johnson bill and asking that it be defeated, Senator Johnson said it is "definitely" not his intention to do so.

This report on the death of the old Mormon custom favoring a plurality of wives, was made by Rev. Clayton B. Rice, an eighteen year old Congregational mission worker in Utah and Idaho, and now superintendent of the Congregational churches in those States. He spoke at the annual directors' meeting of the Congregational church extension board here today.

Aggressive mission work to convert or proselyte the Mormons, was not favored by Mr. Rice.

"The younger generation of Mormons," he said, "hold religious views that are practically the same as those of conservative orthodox churches. Within two or three generations I believe the Mormon church will be recognized as one of the Christian churches."

ANGELENO ARRESTED

Girl Taken in San Francisco Charged With Forgery

SAN FRANCISCO, Jan. 18. (Exclusive)—Elise Rowan, 19 years of age, Los Angeles girl, is in jail here on a charge of forgery as a result of having opened an account in a department store as Mrs. Jack Halestad, a name she said she used last fall while posing as the wife of a local gas employee.

She told police she had been working in a laundry at Newport Beach in an effort to pay the department store bill when she was arrested. She attributed her troubles to pique on the part of her mother, Mrs. Elizabeth Rowan, at Los Angeles last December, after her asserted paramour had threatened her. She declared she was encouraged to purchase clothing on credit at the local store.

HEAVY DAMAGES ASKED

Los Angeles Girl Sues Detroit for \$100,000 Because of Arrest

DETROIT, Jan. 18. (Exclusive)—One hundred thousand dollars are claimed by Miss Charlotte Snyder, a former Detroit bookkeeper and cashier who was brought from Hollywood, Cal., to face a charge of embezzling \$8000, kept in the County Jail for a year and subsequently acquitted in Recorder's Court, according to suit filed by her today.

The defense, through E. F. Tremaine, head of the Tietze Cleaning and Dyeing Company, she accuses him of malicious prosecution and illegal arrest. Miss Snyder was employed in the Tietze establishment during the early part of 1924. She left for Hollywood later in the year. Tremaine procured a warrant against her and she was arrested December 6, put in the Los Angeles jail and then brought to Detroit. She remained under arrest till acquitted on January 19, 1926.

LEE KOBUS SUCCEEDS

NEW YORK, Jan. 18. (P)—Lee Kobus, 63 years of age, prominent business man and former mayor of Chicago, died today at his home in New York City. He was a native of Columbus, Ga.

SENATE NOT FOR SMITH

Leaders Predict Exclusion

Both Sides Express View as Small Appointee Arrives With Credentials

Like Fate Forecast for Vane When Pennsylvania Case Comes Up in March

WASHINGTON, Jan. 18. (P)—Exclusion of Frank L. Smith of Illinois from the Senate both at this session as Senator-designate and at the next as Senator-elect was forecast today by Republican as well as Democratic leaders.

Free expression of their views was given after the arrival here today of Col. Smith to present his credentials at 11 a.m. tomorrow as the appointee of Gov. Small to fill out the unexpired term of the late Senator William B. McKinley.

In the opinion of these leaders a like fate awaits Senator-elect Vane of Pennsylvania when he seeks after March 4 to take the seat over which a contest has been brought by his Democratic opponent, William B. Wilson, Secretary of Labor in the Wilson administration.

Immediately after his arrival from Chicago Col. Smith conferred with Senator Deneen, Republican, Illinois, who is to lead the fight to seat him, and afterward Senate leaders completed plans for the first round in the battle, which will be on the question of whether Smith is to be given a seat before the Election Committee holds a public hearing on his case.

SENATORS OPPOSED TO EVEN PERMITTING Smith to take the oath said that with three or four exceptions they could count on the solid Democratic vote with approximately twenty-three from the Republican side. Friends of Smith conceded they would muster only a few votes from the minority and would lose at least sixteen from the Republican side.

Prospective of whether Smith is allowed to take the oath tomorrow his case will be sent to the Election Committee for a hearing which will bear largely on his accepting of \$15-

PINK SUITS FOR MEN LATEST DECREE OF PARIS DESIGNERS

PARIS, Jan. 18. (Exclusive)—Pink suits will be worn profusely by French business men this coming season, says M. Croonen, leading Paris tailor. "Our designs of light brick color are exceedingly popular and many are ordering now for the Riviera and the later Paris season," said the tailor.

000 from Samuel Insull of Chicago and other public-utility operators for his Senatorial campaign fund while he still was chairman of the Illinois Commerce Commission.

After the hearing the committee will submit a report with recommendation for or against seating Smith as the Senator-designate. That report will let down the flood gates of controversy with the vote that will follow determining whether Smith is to get a seat at this session.

Under the procedure which the opponents of Gov. Small's appointee have mapped out only a majority vote would be necessary to exclude him from the Senate. Should he be permitted to take the oath, some would hold that a two-thirds vote would be necessary for expulsion, but it is conceded that this majority could be obtained if necessary.

Active steps looking to transferring to Washington the ballot boxes used in Philadelphia in the Pennsylvania Senatorial election last November were taken today by Senate officers after the Pennsylvania Supreme Court dismissed an appeal from an order of the life of the new Congress begins March 4.

It still is undecided whether the Senate Campaign Funds Committee, which is empowered to investigate Wilson's charges of wholesale fraud in voting and registering in Philadelphia, will order a recount of the ballot immediately or wait until the life of the new Congress begins March 4.

TRIO DIES AS SCAFFOLDING FALLS PORT ANGELES (Wash.) Jan. 18. (P)—Three men were killed and eight others injured today when a scaffold collapsed over a dam being constructed at Olney Canyon on the Misha River, eighteen miles southwest of here.

Arbitration of Tacna Dispute Will Continue

WASHINGTON, Jan. 18. (Exclusive)—Rejection by Peru of the latest arbitration plan in the Tacna-Arica dispute will not result in the withdrawal of the mediation efforts of the United States unless the terms of the rejection are such as to indicate the impossibility of further negotiations, according to an announcement at the White House today.

President Coolidge believes that the State Department, which agreed to use its good offices in the dispute at the request of Chile and Peru, will continue its attempts to find a solution as long as there appears any opportunity for success.

19 in 20 Mouths Are Safe!

Only 1 in 20 Needs More Than Daily Brushing With a Mild, Agreeable Dentifrice

NOT even middle-aged people need worry unduly over a little gum tenderness or bleeding. For it is a long jump between minor gum troubles and pyorrhea.

In its recent examination of nearly 17,000 policy holders of the Metropolitan Life Insurance Company, the Life Extension Institute found that only 1 in 20 had pyorrhea—only 7.4% at the age of highest susceptibility.

If, as these statistics covering an average group of people indicate, you are included among the 19 in 20 who have healthy gums, wisely refrain from self-medication. Avoid anything that may develop the very condition you are striving to prevent. For healthy tissues thrive on the normal, not on the abnormal.

Instead of gambling thus dangerously, give your gums some honest daily exercise with a good-sized brush of medium stiffness and a safe dentifrice such as DR. LYON'S.

Then if your gums don't take on a healthy, pink firmness, you will have more reason to feel that you are the exceptional 1 in 20 whose teeth and gums need treatment prescribed by a qualified dentist—not self-imposed.

Clean Teeth Don't Decay

It is true that teeth decay—in far too many mouths.

It is also true that nobody actually knows what causes tooth decay. The eminent authorities at Johns Hopkins University make the shrewd guess that

faulty nutrition is the cause, but they have no positive proofs.

But it is known that perfectly clean teeth won't decay.

How to Keep Your Teeth for Life

Visit your dentist regularly, so that unfavorable conditions can be corrected or prevented.

If your teeth need treatment, he will prescribe it.

Twice a day clean every part of every tooth with Dr. LYON'S.

Dr. Lyon's Does All That a Dentifrice Can Do Safely

DR. LYON'S was originally devised for the dental profession, which of course

insisted on ingredients of flawless purity and quality, scientifically blended; on satisfactory tooth cleaning and polishing properties; and on safety.

During its more than 60 years of continuous existence, DR. LYON'S has never deviated from the high standards originally set for it.

It has amply demonstrated that a dentifrice can keep teeth spotlessly clean, lustrous and sound, and promote healthy gums, without any form of medication or magic.

DR. LYON'S is best not because oldest, but oldest because best. It's the only dentifrice old enough to prove that it will preserve teeth for a life-time.

PASS THE LAURELS, LEADEN ALL THE LIES, LAID OUR HERO, AND HAD MY MENTIONED

MAJOR CLASS AA LEAGUE FIGHT

Drafted Men Still by Big League New Pact Go

BAN'S SUCCESS

NEW YORK, Jan. 18. (Exclusive)—President of the American League will be either Edward Barrow, Yankees, or Col. Jacob Ruppert, Cardinals, to eastern baseball circuit.

FRENCH LICK (Ind.)

League baseball representative of the transfer of players, individual leagues for ratification of \$7500, which was opposed by national and Pacific Coast leagues for \$10,000.

Under today's agreement each major league team may have twelve players provided not more than one of them have minor league contracts. The pact provides that players sent to minor leagues will be recalled when called for.

Commissioner K. Landis suggested that the agreement, if ratified, be in force until November 1, 1928, a 10-day contract until other party gives one year's notice of termination.

The major leagues agreed to approve nomination and selection, a proposal always have rejected.

For Class A leagues the draft was suggested to be \$5000; for Class B \$3000; for Class C \$2000, and Class D \$1500. Payment is to be made in full at time of selection.

The player who has not been previously signed by major league club will be subject to selection from Class A until close of following season, the agreement made, or until some time has been on the reserve list three times; from Class A and Class B.

Commissioner Landis again refused to comment upon the "situation" brought about by President Barrow's criticism of the commission's handling of the Cobb-Spears case.

JUDGE LANDIS

Under today's agreement each major league team may have twelve players provided not more than one of them have minor league contracts. The pact provides that players sent to minor leagues will be recalled when called for.

CLASS AA LEAGUES LOSE FIGHT TO RAISE PRICE

Drafted Men Still to Be Purchased by Big Leaguers for \$7500; New Pact Good Until 1934

BAN'S SUCCESSOR "PICKED"

NEW YORK, Jan. 18. (Exclusive)—If Ben Johnson is gullible enough to believe the American League next Monday in Chicago his successor will be either Edward Barrow, business manager of the New York Yankees, or Col. Jacob Ruppert, proprietor of that club, it was learned in eastern baseball circles today.

FRENCH LICK (Ind.) Jan. 18. (P)—Major and minor league representatives agreed today on rules governing the transfer of players, which will be submitted to the national leagues for ratification. The Class AA draft price of \$1000, which was opposed by the American Association, International and Pacific Coast League, was retained. They had agreed for \$1000.

CAN MAC LOSE IT? - - - By Feg Murray

Copyright, 1927, by Metropolitan Newspaper Service

HERE IS ONE OF THE GREATEST OF GOLFERS, OVER WHOM A JINX HAS HOVERED FOR YEARS: HE HAS YET TO WIN A U.S. OR BRITISH OPEN CHAMPIONSHIP.

THE name of Smith has ever been a prominent one in the great game of golf. True, the clan of Jones leads the clan of Smith just at present, but more Smiths are winning golf honors than have those who sport the cognomen made famous by the one and only Bobby of Atlanta, Ga.

MacDonald Smith of the Lakeville Club of Great Neck, Long Island, N. Y., must have been rather discouraged last year when his friend and fellow-golfer of the name of Jones won both the British and United States open championships. For Mac Smith, who is ten years older than Bobby Jones, would give his right eye to win either one of the two big titles which the young Atlanta wizard carried within the space of seventeen days. For Mac has been playing great golf and on now for seventeen years, yet always a jinx has hovered over him, preventing him from winning one of the game's two biggest prizes.

One of Mac's greatest achievements was his winning of the 1926 metropolitan open, after he and Gene Sarazen had set a record by tying for 102 holes. Smith finally won by shooting a 66 on the seventh round. Will he discard his title of "hard-luck champion" in 1927?

McCREERY ELIGIBLE FOR CARD ELEVEN

STANFORD UNIVERSITY, Jan. 18. (P)—Prof. W. B. Owens, faculty athletic representative at Stanford, announced today that Alvin McCreery, varsity football center for the past two years, was in good scholastic standing and would be eligible for the 1927 team. Reports that McCreery was deficient in his studies were circulated over the campus January 8 and were due to the fact that all of his grades had not been turned in. A complete check, Prof. Owens said, showed that he was in good standing.

ACE HUDKINS SIGNED FOR BATTLE WITH JOE DUNDEE

NEW YORK, Jan. 18. (P)—Ace Hudkins, Nebraska wildcat, was matched today to meet Joe Dundee, Baltimore welterweight, at Madison Square Garden, February 23. Matchmaker Jess McMahon announced tonight. The bout is scheduled for twelve rounds.

Hudkins agreed to terms for the best during a long-distance talk with McMahon from Kansas City. Dundee previously had agreed to meet the western brawler who retired from the lightweight ranks several months ago when he found himself unable to make weight in the 135-pound class.

Pete Latzo, welterweight champion of Scranton, Pa., has assured McMahon that he will meet the winner of the coming tussle, the matchmaker said. Dundee has been a persistent challenger for Latzo's crown since his knockout of Mickey Walker, former welterweight king and present middleweight champion, shortly after Latzo stripped him of the title.

NEW YORK, Jan. 18. (P)—Reaching most contenders for Gene Tunney's title, a compromise financial agreement after two days of dickering, Tex Rickard today closed negotiations for a heavyweight match at Madison Square Garden, February 18 between Jack Delaney of Bridgeport, Ct., and Jim Maloney of Boston, two of the foremost contenders for the title.

Expectations are that the match will attract a record indoor "gate" for boxing. It may reach \$200,000 if Rickard is able to charge top prices of \$30 and \$25 for ringside seats. The fighters probably will split upward of \$100,000, although the exact terms agreed upon have not been disclosed.

City Leaguers Air Athletic Scandal

MAY PERFORM AT DES MOINES
Crack Relay Quartet Will be Featured in Meet

Cromwell to Decide if Trip East is Feasible

Array of Sprinting Talent is After New Record

"Little Long Beach," which is down on the maps of the United States as the State of Iowa, is anxious for another peek at the U.S.C. Trojan, Cr. at least such of them as are attracted in the U.V.D. regatta peculiar to track athletes. Athletic authorities of the local university yesterday received an invitation from the governing body of the Drake relay carnival to send any and all Trojan sprinters to the meet to be held in Des Moines April 29 and 30.

A similar invitation was received last year and Coach Dean Cromwell was permitted to take Capt. Bud Houser, Leighton Dye and Ken Grumple to the affair, after the Governor had wired that the Drake won the high hurdles and Grumple finished second in the low.

This year Cromwell's prospective record-breaking four-man relay team is headed, with Lee Barnes, Henry Coggeshall, Cliff Reynolds or anybody else throws in. The team is an amazing array of sprinting talent.

The invading University of Arizona came from Tucson wound up their stay in Southern California last night by defeating Leo Olland's Whittier Poles, 23 to 19, on the Quakers' court.

Playing a steady game throughout, the Whitties took the lead in the first half and clung to it to the end. Miller and Discus did most of the scoring for the Arizonians. Weaver, with 11 points, was high-point man of the game and featured the Whittier attack.

While on their Southern California invasion the Whitties lost two games to U.S.C. and gained victories over the Alhambra Athletic Club and Whittier. The line-ups:

ARIZONA (23) WHITTIER (19)
Miller (7) Weaver (11)
Discus (6) Reynolds (10)
Barnes (4) Coggeshall (10)
Reynolds (4) Olland (10)

ARIZONA 13 WHITTIER 19

BEARS SEEKING DATE WITH NOTRE DAME

BERKELEY, Jan. 18. (P)—W. W. Monahan, graduate manager for the University of California, today announced plans for a football game between the Bears and Notre Dame or some other leading eastern university, to be played either late this year, or on New Year's Day, 1928.

Monahan has drawn up a list of colleges willing to play, and from the list will be selected an opponent for the Bears. The game will be played after the regular schedule.

SALVADORE STOPPED BY YOUNG CORBETT

FREEMAN, Jan. 18. (P)—Young Corbett, Fresno lightweight, outboxed Phil Salvador, veteran Los Angeles boxer, out of the picture here tonight in the third round. A second sent a towel floating into the ring when Salvador was apparently unable to protect himself from Corbett's vicious lefts.

WINS ON A FOUL

In the third round, Long went down first and claimed a foul. He was sent to his corner for a minute's rest and then the pair resumed battling. In a furious mix-up the dusky Omaha battler won on a foul.

GOLF TEAMS PLAY TODAY

Second Round Matches in Event Scheduled; Rancho Team Entertains Wilshire

Second-round golfing battles in the annual interclub team championship play, being conducted under the auspices of the Southern California Golf Association, will be played today on the various courses throughout Southern California. Local interest will be furnished by groups 4, 5 and 7, which feature the leading golf clubs of this section.

In the leading engagement of the afternoon the up-and-coming Wilshire performers will slice and hook their way over the Rancho course in an effort to further sink the good ship Rancho, skippered by Capt. George Von Bamber. The Rancho article headed by the Beverly Hills performers a week ago and are out to retrieve a portion of their lost laurels. Midway's powerful aggregation, headed by A. D. S. Johnston, are scheduled to be entertained by Fin-

where those roamin' Romans from A. High came as near crossing up Hollywood yesterday afternoon than when Bill Faig's quintet must still be suffering from chills from its narrow squeak. When Junior McInture's Redshirt's blond Adonis, unaided a perfect basket with a scanty fifteen seconds to go giving Hollywood an 18-to-16 win, one of the

went onto the record books. Some high-class shooting by Armstrong, who was high-point man with ten digits, and an equally potent guarding game put up by Capt. Walbot gave the Romans an early advantage. It was only through Capt. Dick Linthicum's three apt baskets in the first half that kept Hollywood's head above the danger line. The score at half time was 12 to 7. Hollywood came back strong with some points in action. The

up game and brought the score to 13-10, still in favor of the home team, at the close of the third quarter. He then opened the final with a snap shot and Melvin followed up with another direct to put Hollywood in the lead for the first time since early in the season. 14 to 13.

When Barchterer sunk a foul shot, Sultenfuss rang the score. Sultenfuss rang another basket with two minutes to go. Barchterer missed the opportunity when he missed the foul in a row. Cranston

ed the game up with a wild
hate, and McInturf scored from
under the basket with the win-
ning tally. Los Angeles called
me out, but the game was over
before the Romans could do any-
thing.

The lightweight game was a dupli-

winning 18 to 16. Charlie, a half-pint substitute forward, was the star of the extra period battle. His score of six points at crucial moments and his final heave won the game.

CHEERFUL CHAFF

BY READERS

WRITE FOR THE "MOVIE" AND WIN CASH PRIZES
The Los Angeles Times produces a popular fun reel called "Cheerful Chaff," consisting of the twelve best jokes submitted weekly by readers. Twelve \$1 prizes are awarded each week, the names and addresses of winners appearing with their winning jokes appearing on the screen. No formal letter is necessary. Just let down your jokes, as many as you wish, plus your name and address and mail to "Cheerful Chaff Editor," Los Angeles Times. Jokes for the screen must not exceed thirty words.

You Can STOP Piles!

All kinds of hemorrhoids
occur to one, simple
and safe suppository which
relieves such distress and
is pleasant to use.
In other words, suffering
from piles in any
form is needless!
Piles are sometimes
excruciatingly
painful. They
are frequently
embarrassing
and unthink-
able for active
people. And
they are
never necessary.
How else could
the use of
Pyramid sup-
positories be so
widespread? Why
would every drug-
gist have them
and mention
Pyramid first when
asked for advice?
Pyramid suppositories
are of the
most gentle and
safe kind, and
are of the
most effective
kind. They are
of the most
effective kind.
Pyramid Drug

VOID UGLY PIMPLES

Simply face will not embarrass
much longer if you get a pack-
age of Dr. Edwards' Olive Tablets.
This should begin to clear
your face of the tablets a
little.
The blood, bowels and
skin are the successful substitute for
oil. There's no sickness or
other taking them.
Dr. Edwards' Olive Tablets do
what calomel does, and just
as safely, but their action is
gentle and safe instead of severe
irritating.
One who takes Olive Tablets
is cured with a "dark brown
face," a bad breath, a dull, list-
less "good" feeling, constipa-
tion, a large liver, bad disposition
and a
face.
Olive Tablets are a purely vege-
table compound mixed with olive
oil and are known by their olive col-
or.

el. He asserted that the Packard president had not been qualified as an expert in the valuation of stocks, he declared "hypothetical questions" to Joseph E. Duggan, an appellate counsel, which prompted the estimate, did not cover all essential factors.

Judge John Sternhagen of the Board of Tax Appeals, presiding, finally admitted the answer "for what it is worth." When examined by Francis Macaulay, he said he was "not a financial expert," but said he was "not sure" he had his estimate on his general knowledge of market conditions as a business man, and on the earnings, equipment, output, personnel, facilities, reputation, prospects and intangibles of the company.

Causes of Action Many in Reopening of Small Claims Court Here

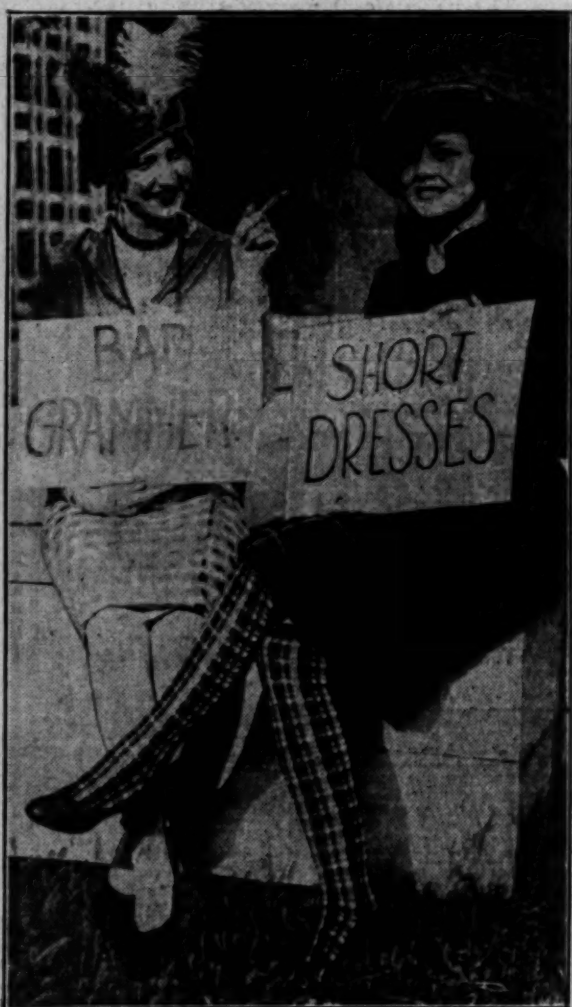

Small Claims Court, Legal Friend of Poor Man, was reopened here yesterday with a docket of thirty cases set for the first official session before Presiding Judge Willis of the Municipal Court. The causes of action ranged from unpaid rent to a complaint involving the owner of a bowl of goldfish. In the above photo Judge Willis is listening to the tale of T. C. Meek (right) who charged Mrs. J. M. Wassell (seated) with owing him \$32 rent. A compromise was reached and a judgment of \$20 given the plaintiff. Municipal Judge McCoy will preside in the court after this week. (Times photo.)

Attracted Through Their Mutual Talent for art, Miss Jane Kendall, known as "most beautiful girl who ever entered the White House portals," and George Grant Mason, Jr., heir to immense fortune of his father, will march together to altar soon. (P. & A. photo.)

The Formal Opening of its Women's Department by the Pan American California was made the occasion of a social gathering of significance to society. Four of the hostesses who presided at the reception and are pictured above, left to right, Mrs. Benjamin F. Bledsoe, Mrs. H. B. Bledsoe, Charles F. Gray and Mrs. Eleanor Germon.

War Against Petty Modern Vices of the American flapper has been declared by students at Washington Seminary at Atlanta, Ga., who recently appeared in grotesque costumes and carrying placards naming the vices. Two of the students pictured above. (P. & A. photo.)

A Little Gossip of the Big Top is being slipped to Tom Sharkey, former heavyweight pugilist, by Jiggs, the orang-utan, both of whom will be on the road with the Al G. Barnes Circus this year. Tom appears to have found a friend on the lot in Jiggs. (P. & A. photo.)

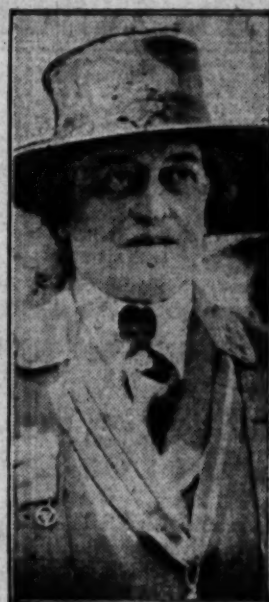

Full-fledged Director in motion pictures, 25-year-old Dorothy Arzner (above), former film cutter and scenario writer, began work on an important picture at a Hollywood lot this week.

Between Foreigners and Chinese Mobs in Hankow practically the only refuge are three-sided sandbag barricades such as the one pictured above, which hurriedly thrown up by British Tommies in the Foreign Quarter. Anti-sentiment in China has developed to the point where the lives of alien, particularly British and American subjects, are in constant peril and many nationalities have fled the menace. (P. & A. photo.)

It Was a Narrow Escape From Death for the Swiss mountaineer pictured above (arrow) being extricated from the fringe of an avalanche which trapped his party in the High Alps. A dozen others were similarly caught, but none seriously injured. (Herbert Photos, Inc.)

Girl Scouts Founder, Mrs. Juliette Low (above) of London and Savannah, Ga., is dead at the latter city following brief illness. She was 67 at time of death. (P. & A. photo.)

First Woman Guide at Capital, Mrs. L. B. Lingo, is photographed above with the famous bust of George Washington, one of the interesting art objects on the capital grounds. Until recently only men had been employed as guides. (P. & A. photo.)

Ten Little Baby Stars ranged in a line. From the bottom up they are, Barbara Kent, Sally Rand, Frances Lee, Mary McAllister, Sally Phillips, Natalie Kingston, Iris Stuart, Rita Carver, Gladys McConnell and Adamae Vaughn.

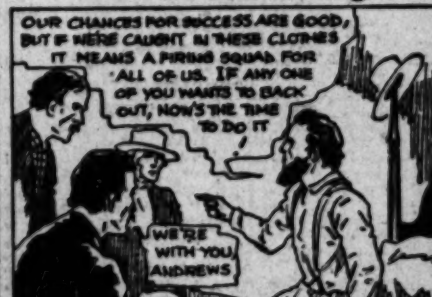

More Than Enough Rubber to supply situation for American tire industry eventually be raised on the West Coast, says H. S. Friedman, who has returned from Africa. (A. photo.)

OUR HISTORY IN PICTURES

617 The Georgia Railroad Raid (Part Three) by J. CARROLL MANSFIELD

AT DAWN ON APRIL 12, 1862, THE DAY SET FOR ANDREWS' RAID UPON THE GEORGIA STATE RAILWAY, THE DISGUISED FEDERALS QUIETLY MET IN THEIR LEADER'S ROOM AT THE MARIETTA HOTEL (MARIETTA, GEORGIA), FOR THEIR FINAL INSTRUCTIONS. OF THE 24 WHO HAD LEFT SHELBYVILLE, FOUR HAD BEEN DISCOVERED AND ARRESTED BY THE CONFEDERATES. TWO OF THESE, TO SAVE THEIR LIVES, JOINED THE SOUTHERN ARMY.

THE PLAN WAS TO TAKE THE EARLY MORNING MAIL TRAIN FOR CHATTANOOGA AND TAKE POSSESSION OF IT AT BIG SHANTY, EIGHT MILES NORTH OF MARIETTA, WHEN THE PASSENGERS AND CREW LEFT THE CARS TO GET BREAKFAST.

THE DAY WAS RAINY AND GLOOMY. SHORTLY BEFORE TRAIN TIME, THE DISGUISED RAIDERS WENT DOWN TO THE DEPOT AND, IN ORDER NOT TO EXCITE SUSPICION, PURCHASED TICKETS FOR DIFFERENT POINTS ALONG THE LINE.

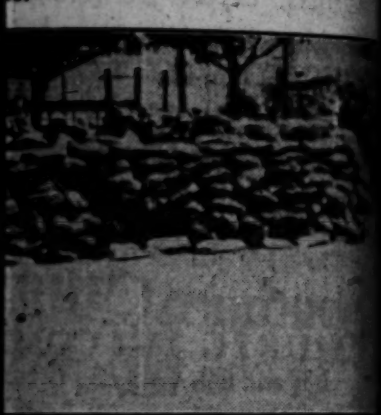

TO THEIR CHAGRIN, THE PLATFORM WAS CROWDED WITH CONFEDERATE RAIDERS WHO WERE BOARDING THE TRAIN. EACH OF THE INTERIOR LITTLE BARS HAD BEEN PART OF THE RAID PLAN TO THE ATTEMPT.

Covered Wagons of 1927

CONTRAST conditions at Rancho Santa Fe in 1927 with those surrounding the settling of the Prairie States and the Pacific Coast in the days of the Covered Wagon!

Physical hardships, lack of capital and a dearth of creature comforts left a stream of broken hopes and broken lives along the Santa Fe and Oregon trails. Much of the glory and most of the wealth redounded to those who followed the real pioneers in the Winning of the West.

Today, as then, an area of virgin land is being brought to production. But at Rancho Santa Fe there is Capital, Water, and a Trained Organization with 1927 Facilities for taming the soil and creating for you, the "pioneer," an income-producing orchard estate.

With the Santa Fe Railway behind it and a clear vision of what was to be done, the immediate success of 9,000-acre Rancho Santa Fe as a horticultural project was a fact before even a furrow was turned.

But bringing citrus and subtropical orchards to bearing as an income proposition is only half the story. The other half capitalizes the fact that Rancho Santa Fe's setting is a Riviera-like region of balminess and lovely natural beauty between the mountains and the sea—a place which if sanely controlled would naturally be the world-wide choice of successful people for permanent homes.

The same men who had the vision to assemble all the basic factors of Capital and Organization before the undertaking, also saw that successful America was migrating to California by the million in search of just such loveliness.

So wise restrictions as to architecture, landscaping and uses of land were levied. Everything that people of character and means require for residential surroundings was provided. Rural life was given an urban aspect, with unusual regard to esthetic and cultural considerations.

No untoward influence can creep into Rancho Santa Fe to mar its beauty or retard its increase in value. Your neighbor at Rancho Santa Fe is required to plant and build and develop his country estate to conform to artistic standards. You are required to do the same, because the Santa Fe Railway's immediate purpose in this project is to create traffic. Only one thing can happen to value in a situation like that.

If you can qualify, you can still buy land at Rancho Santa Fe at horticultural prices and take full advantage of the results which the project's development as a "unique community of country estates" will bring. Some of America's foremost families are now building at Rancho Santa Fe. The project is 70% sold. Yet because of careful planning, much of the choicest acreage, hitherto reserved, is now available. Mail the coupon for full information.

70% Sold!
Although 70% sold,

FIVE CITY BANKS ON SURVEY ROLL

List of 100 Largest in Point of Deposits Compiled

Los Angeles and Detroit Tie for Sixth Position

New York Unopposed Leader With Twenty-seven

Five Los Angeles banks are listed among the 100 largest banks in the United States in point of deposits, according to a survey just completed and published in the current issue of the American Banker.

New York leads the list with a total of 27 banks, followed by Chicago with 26, Los Angeles with 10, San Francisco with 9, and Philadelphia with 8.

The Security Trust and Savings Bank, largest bank in Los Angeles in point of deposits, ranks twenty-eighth among the banks of the country with total deposits of \$200,000,000.

SILVER PRODUCTION SHOWS GAIN IN YEAR

NEW YORK, Jan. 18. (AP)—Production of silver in the United States in 1936 was 122,302,000 fine ounces against 134,888,000 in 1935, the output for December 1936 was 10,810,000 ounces against 10,677,000 in 1935.

LIFE POLICY SHELL GIFT TO WORKERS

Free Life Insurance to Extent of \$4,000,000 is Issued by Oil Company

Free life and total-disability insurance aggregating approximately \$4,000,000, covering more than 8000 employees of the Shell Company of California, was announced yesterday at the local offices of the company.

The Shell Company of California has just closed its 1936 successful year in its history, with 1936 net earnings amounting to approximately \$28,000,000, as compared with \$24,000,000 in 1935.

Directors of the Shell-Union Oil Company will meet on the 17th of next month for dividend action, and rumors current are that the stock will either be put on a regular quarterly basis, or the special 60-cent extra declared in November will be continued.

London Daily Radio

By ARTHUR W. STODDY
LONDON, Jan. 18. (By wire)—The markets today were generally cheerful, confidently anticipating a reduction in the Bank of England discount rate.

Government stocks again showed a sharp advance on money hopes. Firmness in the rails has disappeared, owing to opposition of business to the proposed rate increase and the expectation of a bad showing in the annual reports.

Oil was sentimentally depressed by the death of Lord Harcourt, chairman of the board of the Shell-Union Oil Company, although he retired some years ago.

Paris favorites were slightly weaker because of the steadiness of the French franc. Activity in mining shares was centered principally in tin shares. Their strength was due to the prospects of a higher price for the metal.

An Imperial Tobacco dividend is expected immediately, but hopes are disappointed as a result of the idea that directors will await the market before proposing a dividend.

The rise in government securities was maintained to the close of the session except for a slight easing of the 4 per cent funding issue at 80, this being the stock with which the new consolidated will chiefly compete when dealings begin.

Utility Reports Stock Sales to Customers Gain

Customer ownership sales of preferred shares of the operated utilities of Standard Gas and Electric Company for 1936 again surpassed all former records, the total amounting to \$25,061,000 per value, an increase of 15.12 per cent over the previous high record established in 1935.

There were 35,801 separate transactions, the average par value sale being \$680.

Net treasury sales amounted to \$20,112,900 per value, an increase of 13.37 per cent. Of the total \$20,616 shares sold, only 19,814, or 7.8 per cent, were sold on the monthly investment plan, with a minimum payment of \$5 a share per month.

The customer ownership plan of equity financing added 17,000 new shareholders to the operated utilities of Standard Gas and Electric Company during 1936, raising the total company shareholders to approximately 100,000 at the close of the year.

FULL BOND QUOTA PROMISED

Expect Flotation of Building Issues to Nearly Equal Record of Last Year; Construction Costs Off

BY EABLE E. CROWE
For the same reason that a business depression will not materialize unless the cost of credit is sharply raised, the rate of new construction activities in the United States will continue on a high level during the coming year.

As long as the cost of building materials is relatively low, new construction will proceed. The instinctive desire for gain, as the economists would reason, will prompt the builders and bankers to erect new structures, knowing that the cost will be reasonable and that investment funds are available for the purchase of the necessary securities.

OIL CONCERN NET PROFITS ANNOUNCED

Eleven Months' Income of Holly Development More Than Pays Dividend

Net earnings of the Holly Development Company for the eleven months ended November 30, last, after all charges, but before depreciation and depletion, amounted to \$485,685.03, equivalent to 54 cents a share on the 900,000 shares of capital stock.

The company is paying 40 cents annually on its capital stock, payable 10 cents quarterly. With earnings in the eleven months totaling 54 cents a share, the year's dividend was more than taken care of.

Metropolitan Trust Capital Boost Planned

An increase in the paid-in capital of the Metropolitan Trust Company of California, it was announced yesterday by Arthur H. Braly, president, before the annual stockholders' meeting.

Braly said that the company's capital structure is being strengthened by the addition of new capital, and that the company is planning to increase its paid-in capital from \$500,000 to \$1,000,000.

Stock Sale for Rail Financing Held Infeasible

NEW YORK, Jan. 18. (AP)—William Spruille, president of the Southern Pacific Company, expressed today his preference for financing the railroads of the country through the sale of stock in commenting on the general railway credit situation.

Mr. Spruille said that the sale of stock is the most feasible method of raising the money needed for the construction of new railroads, and that the sale of bonds is not as desirable.

Mr. Spruille said that the sale of stock is the most feasible method of raising the money needed for the construction of new railroads, and that the sale of bonds is not as desirable.

Construction Index Pointing Down

Further Decline Held Likely
A slackening in building operations, more noticeable in the last half of 1936, is expected to continue this year and result in a smaller total of new construction.

ECONOMIC THEORY SHAKEN

America's Dwindling Trade Balance Raises Question Among Old School of Ultimate Disappearance

BY PAUL WILLARD GARRETT
(Copyright, 1937, by New York Evening Post, Inc.)

NEW YORK, Jan. 18. (Exclusive)—A rise in merchandise imports and a fall in exports for 1936 suggested this country's so-called favorable balance of trade, or excess of exports, over imports, down to \$78,000,000.

To any student of the old school, it will not be pleasant to read that our export excess for last year was only about half of what it had been the year before and that in the year before that it had fallen. Ever since 1919 our favorable balance has been falling steadily and sharply.

And yet for very good reasons modern students of foreign trade do not appear disturbed by the future. In a general way the change represents the correction of a miscalculation that arose during war.

When the war broke out, the picture was that of a nation that was a net importer of goods. The picture was that of a nation that was a net importer of goods.

The Clearinghouse

News of Spring Street

At the regular meeting of the

board of directors of the Security

Trust and Savings Bank yesterday

several new appointments were

announced. Transferred from the

South Pasadena branch to the head

office, William W. Gottle, assistant

vice-president, will become assistant

cashier. Herbert H. Smock, vice-president

and cashier, the vacancy in South

Pasadena will be filled by David L.

Prattner, assistant cashier, who is

given the new title of assistant man-

ager of the Huntington Beach branch.

C. N. Whitman, who for several

years has been assistant manager of

the Huntington Beach branch, has

been appointed manager of the

Huntington Beach branch, which

has been promoted to assistant

cashier.

Bankers on Tour

Members of the board of directors

of the National and Citizens

Trust and Savings Bank yesterday

made a tour of inspection of the

branch offices of the bank. All the

branches are located in Los Angeles

and the party visited most of them.

Next week a similar excursion will

be made to cover the remainder. Ac-

company the board members were

F. E. Foraker, vice-president, and

superintendent of branches, Dain

Sturges, vice-president, and F. B.

Cousins, assistant vice-president.

Addresses Parents

Paul B. Kent, assistant manager of

the American branch of the California

Teacher Association at Florence at

their regular meeting yesterday after-

noon. His subject was "School Sav-

ings." California Bank has the largest

number of school savings accounts of

any bank in the city.

Victor Capital

Plan Voted by

Stockholders

PHILADELPHIA, Jan. 18. (AP)—The

reorganization plan of the Victor

Talking Machine Company was ap-

proved today at a special meeting

of the stockholders.

The plan provides for increase of

capital to \$400,000 and creation of

200,000 shares of 7 per cent cumula-

tive preferred stock, par \$100.

125,000 shares of 8 per cent cumula-

tive preferred stock, par \$100.

and 819,915 shares of 100 par-value

common stock.

With the exception of 244,230 shares

of common to be held for conversion,

all of the stock will be issued in ex-

change of the present outstanding 350,-

000 (\$350,000) shares of common stock

of \$100 par value.

NEW YORK CURB STOCKS

NEW YORK, Jan. 18. (AP)—Renewed activity and strength in the oil shares overshadowed all other developments in today's irregular curb market. While private estimates showed a slight increase in crude oil production last week, the heavy accumulation of Standard Oil of Indiana and the declaration of a 10 per cent stock dividend on the new stock of the Texas corporation had a cheerful effect on sentiment.

Standard Oil of Indiana common touched 72, the highest price since the declaration of the 100 per cent stock dividend in 1922.

Motor shares were again under pressure. Marmon broke 4 5/8 points to 37, and Stutz fell back nearly 3 points to 34, and then recovered half its loss. Coal shares were heavy. Parke-Davis fell back 2 points on the announcement of a 5-for-1 split-up. Libby Owens, which recently scored a sensational advance on the announcement of a control had passed to a syndicate of New York and Belgian bankers, broke 9 points.

Substantial gains were recorded by a number of minor specialties, such as Fanny Farmer, Fricolated Metals, Fulton Syphon and U. S. Stores, but these were offset by sharp losses in American Rolling Mills preferred, New Jersey Zinc, Realty Associates of Brooklyn, St. Regis Paper, Standard Tank Car and U. S. Gypsum.

Bonds were active and firm, with the foreign government issues making the best showing.

The closing price is quoted above on the left, and bid and ask prices on the right.

Our Welcome to Those Who Borrow Money!

Good loans are as important to us as 6% thrift accounts . . . you can't build a financial institution on mere money . . . you must have borrowers . . . too.

Conservative borrowers are those who add their brains to other people's money . . . and make a profit . . . in convenience . . . investment or sale.

Our loans are paid by the money . . . amortizing principal and interest . . . but that payment doesn't start until the construction is completed. Interest starts only as you use the money . . . it doesn't start from signature of your note . . . unless you want all the money escrowed.

Nor do we make preliminary charges for appraisal and examination . . . all of these customs a little bit different from other financial institutions . . . perhaps . . . but part of our loan policy for 34 years of service to conservative borrowers.

We appreciate your conservative loan applications . . . from yourself . . . your friends . . . or your clients . . . phone . . . come in . . . or write for loan folder.

The Times

WEDNESDAY MORNING, JANUARY 19, 1927.—PART II. 20 PAGES.

POPULATION (By the Federal Census—1920—1,374,971
By the City Directory—1927—1,323,458)

Puts An End To Bunion Pain

No Need to Suffer Anymore
From These Agony-Inducing
Painful Blisters

There is one simple yet effective way to reduce inflammation, relieve the joints and get the bunion back to normal and that is to use Moore's Emerald Oil.

Ask any first class druggist for an original, two-ounce bottle of Moore's Emerald Oil. It is a concentrated preparation of the most potent medicinal oils and is so effective that it will cure any bunion in less than a week. It is so effective that it will cure any bunion in less than a week. It is so effective that it will cure any bunion in less than a week.

Grandmother Knows

There was nothing so good for a cough and cold as mustard. The old-fashioned mustard, the kind that comes in a tin, is the best. It is so effective that it will cure any cough and cold in less than a week. It is so effective that it will cure any cough and cold in less than a week. It is so effective that it will cure any cough and cold in less than a week.

MUSTEROLE

Better than a mustard plaster. It is a clean, white ointment made with oil of mustard. It is so effective that it will cure any cough and cold in less than a week. It is so effective that it will cure any cough and cold in less than a week. It is so effective that it will cure any cough and cold in less than a week.

GITR

Is ascribed to too little void gland secretion. Radium Spas stimulates thyroid gland secretion and removes the cause of goiter. If you are suffering from goiter, it is a good idea to try Radium Spas. It is so effective that it will cure any goiter in less than a week. It is so effective that it will cure any goiter in less than a week. It is so effective that it will cure any goiter in less than a week.

CUTICURA HEALS RED PIMPLES

On Face and Neck. Could Not Sleep at Night.

"The trouble on my face and neck started with little red pimples that would not go away. I tried everything but nothing helped. I then tried Cuticura and in about two weeks my face and neck were clear. I could sleep at night. I am so happy now. I am so happy now. I am so happy now."

Dr. Fairfield

Dr. Fairfield, 536 So. Broadway, Los Angeles. He is a specialist in the treatment of skin diseases. He is so effective that it will cure any skin disease in less than a week. It is so effective that it will cure any skin disease in less than a week. It is so effective that it will cure any skin disease in less than a week.

YOUNG AVOIDS DOTTED LINES

Moore's Emerald Oil Offers
White Summer Rests

The Contract Reported to be
Under Consideration

Announcements Promised
Within Day or Two

With the close of contracts of all the young men in the city, George Young, winner of the Moore's Emerald Oil contest, is expected to appear at the Moore's Emerald Oil contest. He is so effective that it will cure any skin disease in less than a week. It is so effective that it will cure any skin disease in less than a week. It is so effective that it will cure any skin disease in less than a week.

Getting Up in the Social Swim

George Young, winner of the Moore's Emerald Oil contest, is expected to appear at the Moore's Emerald Oil contest. He is so effective that it will cure any skin disease in less than a week. It is so effective that it will cure any skin disease in less than a week. It is so effective that it will cure any skin disease in less than a week.

East Admits West Best in Aerial Game

Nation-wide acknowledgment of Southern California's leadership in commercial aviation is being evidenced daily, according to officials of Western Air Express, Inc., who cite as the latest manifestation an order received yesterday from New York City for a supply of air-mail envelopes.

FUNERAL TODAY FOR P. H. MANCHESTER

Puneral services will be conducted this morning at 11 o'clock at Pierce Brothers' chapel for P. H. Manchester, 58 years of age, Civil War veteran, who passed away Saturday at his home, 4138 South Figueroa street. Mr. Manchester belonged to the California Fruit Growers' Exchange and Walter P. Burns, Pacific Coast manager of the bureau of advertising of the American Newspaper Publishers' Association. President Frank M. Ketter will deliver the presidential address.

Salvation Army Extolled

Unfined Praise Awarded Organization at Meet of
Southland Contributors

By a "Times" Staff Correspondent
MANHATTAN, Jan. 18.—The vital, never-ending problem of rebuilding the human race is the center of attention today at the fifth annual meeting of the Southern California advisory board of the Salvation Army at the Hotel Yale del Arroyo here.

Bulldogs of Pacific Fleet Advance to Engage "Enemy"

Open Fire at Extreme Range, the Enemy Still Invisible!

PLANES JOIN IN 'BATTLE' AT SEA

Fleet Executes Most During
Practice Ever Held

Real Torpedo Attack Made
on Dreadnaughts

Guns Roar and Mammoth
Shells Find Marks

BY WALDO DRAKE
"Times" Staff Correspondent
ABOVE THE FLEET AT SEA, ABOARD TORPEDO PLANE, U.S.S. 2-T-11, Jan. 18. Mars' spawn of the skies, the fighting planes, had their big show here above the Pacific today, while sixty ships, the battle fleet, fired force practice—incidentally the most spectacular gunnery exercise ever executed by an American fleet.

To the winged watchers from the ships a marvelous tableau was enacted on the glass-like surface of the sea, striking proof of the efficiency of America's "first line of defense." From our vantage point, the fleet was a two-mile string of target rafts, towed by the Medusa and Proctor, representing the money battleships while on the inside flank cruised a squadron of destroyers, whose business it was to launch a real torpedo attack at the battleships when they were in the hottest part of the fight.

Ready to Dodge Shoals of High Finance

George Young is doing a little aeronautical flying on the best way to save the 25,000 dollars which he gathered in the Pacific on the way over from Catalina. He also may be thinking about adding to the hoard George, you know, was born in Scotland.

HIGHER GAS RATE ASKED IN SUBURBS

Increase of 35 Per Cent
for Natural Product in
Western District Sought

An increase of 35 per cent over present rates in the western district is asked in a petition filed with the State Railroad Commission by the Southern Counties Gas Company yesterday. The western district includes Santa Monica, Culver City, Barnes City, Venice, Sawtelle and Palms.

CHARGES FLY IN JURY QUIZ

Defense Attorney Files Affidavit as Prosecution Hints
Tampering During Trial of Flyer

Among other startling assertions in an affidavit made public last night by Attorney Paul W. Schenck after an independent investigation of circumstances surrounding the recently dismissed Carroll B. Crossan jury is the charge that two official investigators entered and searched the room of Ernest Head, an elderly member of the jury, while he was locked up in the jury room deliberating with his fellow-jurors.

AUNT HET

BY ROBERT QUILL
"I know Amy's husband is better off in Heaven than he was here, but it made me mad to see her look so smilin' serene at the funeral."

'MIRACLE' MEN WELCOMED

Notables Attend Brilliant Reception in Honor of Max Reinhardt and Dr. Karl Vollmoeller

Honored by a reception which included one of the largest group of distinguished men ever seen in one place in Los Angeles, Max Reinhardt, the master producer who created "The Miracle," and Dr. Karl Vollmoeller, who wrote the story for that stupendous drama were welcomed at the Ambassador yesterday.

SEEMED LIKE YARDS

To us in the air, those twenty miles seemed but a few yards, until we realized that it was taking the dreads to reach their objectives. The giant dreadnaughts seemed but toy, as these five monsters opened fire at extreme range, the enemy still invisible to them, but their planes gave them data by radio that sent salvo after salvo of shells into the speeding targets.

The Lancer

by Harry Carr

T HIS Canadian boy, George Young, who won the channel swim.

I met him yesterday at a motion picture studio where he went to sign what was probably the first contract he ever had in his life.

HANGERS-ON

Their opening, twice scheduled and twice balked by technicians, came on the heels of a swift legal maneuver by Chaplin's staff of attorneys to have the recapture over the Chaplin corporation discharged.

FIGURES NEEDED

That which followed came almost automatically because of the nature of the action and the requirements of the law covering such cases.

THE GOLDEN AGE

When you see this boy swimmer you begin to understand why Alexander the Great conquered the world before he was old enough to raise a beard; and how the boy Napoleon led the greatest military campaigns of Europe.

CHARLIE CHAPLIN

Charlie Chaplin is in danger of something much more dangerous than a juvenile-bringing-up and a belittling mother-in-law. He has run foul of the American public at a time when it is thirsting for entertainment.

WHAT JUSTICE TALKS

It is to be hoped that the State Legislature will listen to the remarks of Justice Tait as outlined in a newspaper interview.

Today's Studio Garden Talk at 2:30

STUDIO GARDEN TALK
TODAY'S TALKER: DR. MARY BAUMGARDT

More Old-Time-Fiddle Tunes Tonight

day's press has to know something
about musical terms and programs.
have a general insight into broad-
cast procedure, know radio news from
radio publicity, carry with him an
element of humor, and not take the
job too seriously.

But he does not have to know
much about the technical side of the
technical radio magazine, amateur
clubs and periodicals, and Sunday
supplements. The average listener-in
is apt to ask why the grid leaks, what
makes the varicometer vary or why
inquire as to the potentialities of the
potentiometer.

Instead of becoming appalling, this
ignorance is refreshing, for in this
day and generation no man or woman
can know a little about everything,
and the lack of all trades is rapidly
diminishing as a species.

"PEONAGOWITOMS"
The fourteenth bridge game opened
the KJH broadcast at 2:30 yesterday
afternoon and later the children's
hour came on the air at 4:30 with
Uncle John and his RadioLand lads
and ladies.

As Uncle John was talking there
came to the listeners the faint sound
of elfin music. Slowly the surround-
ings of the studio faded away and
Uncle John found that he was stand-
ing in the middle of a large auditorium.
He found himself in the middle of a
large auditorium.

As it came to rest beside Uncle
John he saw Queen Titania and her
courtiers seated in the plane, and the
soft strains of the fairy music be-
came more distinct. Uncle John
found that he was standing in the
middle of a large auditorium.

TODAY'S PROGRAM

2:30 p.m. Weekly garden talk by
Fred C. McNabb.

6:30 p.m. Uncle John and the
children's hour: Dick Winslow, screen
juvenile; Vivian Marple, "Blue Bell";
Glenn Fitts, "Optimistic Maseott"; Pa-
tricia Eccleston, "Little Daffodil";
Lois Jane Campbell, "Brown Eyes";
Constance J. McCoy, "Sweet Marie";
and Viola Rosen, 3-year-old dramatic
pupil of Marshall Steedman.

7:30 p.m. Evening scripture read-
ing by Scott S. McCune, on behalf
of Church of Jesus Christ of Latter
Day Saints.

7:40 p.m. Weekly astronomy talk
by Dr. Mary Baumgardt.
8 to 9:15 p.m. World-wide news
and weather report.

9:15 to 10 p.m. "Dad" Pettit, old-
time fiddler, studio hall at the
piano; Laura Berkowitz, violinist;
Marjorie Locke, contralto, and Jac-
queline Smith, soprano.

9 p.m. Time signals and Public
Library talk by George F. Chase.
10 to 11 p.m. "Johnnie Van Dance"
Orchestra.

LOS ANGELES (Loco Ahng hayl ai)

MEMBER OF THE ASSOCIATED PRESS
The Associated Press is authorized to use the name of the Times in its publications and to use the Times' name in its publications.

The Times also at all times to be accurate in every published statement of fact. Readers who desire to know the truth about any statement will confer a favor by calling attention of the Editorial Department to the error.

THE APPLE CROP
The last apple crop of the nation exceeded 300,000,000 bushels, but at that there is hardly enough to keep the doctor away if everybody is to have one a day.

SPORTING THRILLS
An expert on thrills says that the greatest sporting thrill of last year was supplied by the three home runs which Babe Ruth landed out during the world series. Tunney's defeat of Dempsey or Gertrude Ederle's swimming of the English Channel didn't carry the fire of Ruth's accomplishment. The boy Young's exploit has given the experts something else to figure on.

FAST EATER
Mussolini's three-minute dinners do not meet with the approval of his physicians, who have cautioned him to eat more slowly. Mussolini says that when he can spare the time he is going to visit the United States. When he comes to this country the managers of his tour probably will warn our people not to test the Premier's patience by giving him long-winded banquets, but to hurry him off to the lunch wagon.

HEAVY FIRING
The American Marines in Nicaragua have been doing nothing but keeping the peace. They are firing no powder and their influence is used only in maintaining order and preserving human life. Yet to listen to the yelps of some of the open-mouthed orators at Washington Uncle Sam's forces are being deliberately used to foment a war. There has been no heavy firing under the dome of the Capitol at Washington that there has been in Central America. It has not been in the interest of peace and order, either.

LABORATE FUNERAL
Most elaborate and costly preparations are being made in Japan for the funeral of the late Emperor. The funeral will cost an appropriation of \$1,000,000 has been made by the Diet to defray the expenses of the obsequies. A feature of the pageant will be a 150,000 two-wheeled hearse with musical bells that will play funeral dirges as the vehicle moves through the streets. Such lavish expenditures in one way of showing high honor to a dead monarch, though the idea cannot be said to make a very strong appeal to the western mind.

DINK AND DIVORCE
Over in Ontario a woman sued for divorce on the ground that her husband got drunk every day. The court held that this was not sufficient cause for action. The idea was that drunkenness did not constitute cruelty and under the law there is nothing to prevent a man from getting drunk every day if he has the appetite and the price. That is the ruling that may be expected in a territory that is disposed to smile upon the traffic in liquors. Things work better for the wife in most of the States in this country.

FEW ARE SATISFIED
The buying power of the American people is very high, but they are no more satisfied than they were four or five years ago. Nor are they likely to be satisfied. Standards of living continue to advance. The luxuries of yesterday are the necessities of today and the castoffs of tomorrow. Perhaps it is well that every man is not content with his lot. Were this the fact there would be little progress. Most of the advancing is on the part of the discontented or the ambitious. But it is a fine thing to be able to dwell in great peace and content while the other fellow is climbing. America offers the opportunity for this.

TWO AMERICAS
Most of the peoples of other lands are still carrying two views of America. One is all Broadway, with gleaming lights and glittering diamonds and the other is all wilderness with the Indians taking turns in scalping the whites who venture into the wilds. Neither is correct. The real America is more likely to be found in a place like Los Angeles, which is also the heart of the make-believe country. This territory has a higher proportion of native American than any other part of the country and they may be truly said to represent their land. They have some of the daisies of Broadway with the all-American background.

THE WORK HORSE
A prominent British physician asserts that overwork is a myth and that few if any die of it. But it must be remembered that he is an Englishman and has his countrymen for patients. It is admitted that the average Briton is more leisurely than the normal American in his daily tasks. He is apt to take a couple of hours for lunch and then completed the afternoon half-hour in the afternoon for a cup of tea. In this country a great many men have died from overwork and they did not labor with their hands, at that. Congenial employment, with reasonable hours, makes for health and long life, but one may die from overwork as readily as from overeating, although not so quickly.

FRENZIED CHINESE

A perfect state of frenzy against foreigners is reported from China. Fed by tales of the killing of Chinese babies by the missionaries, the Nationalists of Poochow have been raiding the mission houses, destroying or carrying away church property, threatening the lives of priests and ministers of the gospel and driving them out of the city.

Hotbeds of frenzied race emotion in Shensi and other provinces have been the scenes of wild rioting and for the present the white race is having a hard time of it in China. Many of the missionaries of different denominations have been forced to evacuate what formerly was friendly territory. From some of the provinces come the report that all foreigners have been driven out, after many of them had suffered indignities and personal injuries at the hands of the mob.

During the first days of the uprising there seemed to be reason to believe that the Peking government would discourage attacks upon foreigners in its territory, the northern half of China, even though it could do nothing to prevent the outrages in the southern provinces controlled by the sovietized nationalists. But this hope has been dashed.

The trouble is that the Peking government, fearing that the Cantonese are gaining prestige and support by their anti-foreign activities, has become lukewarm in the matter of affording protection to foreigners and is winking at acts of persecution which it formerly took pains to punish. Another bid for popular favor is being made by Peking in sending out reports that it intends to withdraw foreign concessions at Tien-tsin and elsewhere.

But, though Americans and Europeans now have no friends at court in either capital, they are proving their power by massing troops at various points of vantage and are prepared to hold their ground, though they may have to withstand a long siege.

It would begin to look as though a coalition of some sort had been effected between the rulers of Northern and Southern China. Gen. Chiang says that the southern faction will support the southern Nationalists in resisting any British attempt to regain by force the concession at Hankow from which the British were ousted early in the month. The two Chinese governments are also agreed on the imposition of a surtax of 24 per cent on imports.

The link which joins North and South China is the Nationalist party, which, though it has more adherents in the south, has so many northern ones that Peking finds it politic to heed their cry that foreign rule in China must cease and that the Chinese be permitted to collect their own customs duties and try foreigners in their own courts.

In London the official view of the whole situation is said to be quite pessimistic, but Washington does not seem to be greatly concerned. It is making the nationals aboard its gunboats and giving them full protection. We have weathered some pretty bad storms in China before and with our present strength in Chinese waters and at Shanghai, we should be able to weather this one, even if the situation becomes worse than lately has been reported.

ROMANTIC DREAM COMES TRUE

So vast, so varied are the possibilities for development in Southern California that the most dazzling prospects of the western seacoast or later day adequate interpretation. In Los Angeles reality rides hard behind romance and whenever the one catches up with the other something big happens for the residents of the South-west.

Many years ago such a dream came to the fore, looking like a marching band guard in the army of our Los Angeles workers. It was inspired by the beauty of our surroundings, our unique climatic and topographical features and the desire to evolve from these something that would minister to the culture, art, science and enjoyment of all who loved the manifold works of nature.

That big dream was to create in the neighborhood of Los Angeles a botanical garden, at once the most complete, the most ornate, the most inspiring and instructive to be found anywhere in the world. About this dream there was nothing fantastic. Nature had already set the stage here for the capital of the plant kingdom between Los Angeles and the ocean. There remained to find the practical minds willing to devote their energies to the building of the temple, to designate its location and to arouse the public spirit of the community to the significance of the project.

Stand on any one of the knolls of the broken hills between the Santa Monica Mountains and the new Beverly Boulevard and look westward across that matchless panorama. Feel the softness of the air here in mid-January, its tempered mildness in the heat of August. Drop down into the green vale where the planting on the Oakley estate reveals what this magic strip of country can produce—the fruits of the tropics growing profusely in a latitude 10 degrees north of the Tropic of Cancer. Follow Mandeville Canyon past Manzanita Peak to its crest at the Mulholland Highway and note how you may cross in miniature nearly all the vegetable belts of the globe from the mango grove of the equator to the purple heather of the Scottish Highlands.

Certainly the men who picked 800 acres of this unique blending of all climates for an ideal botanical garden chose wisely and carefully. Having chosen well, they strained every nerve to interest the public so as to get the amazing project practically under way. Time, patience and perseverance were called for to raise the large sum of money needed to bring this new world wonder to the gates of Los Angeles. Every lover of Los Angeles, of the miracles of nature, of enterprises consecrated to the revealing of the Creator and the betterment of humanity will hear with joy that the preliminary work is complete and will see that the progress does not lag for want of local or national support.

When the farmers, the scientists, the poets, artists and nature lovers of the civilized world are attracted to this universal exponent of earth's botany and plant development, as they will be when the project is completed, the names of two Los Angeles citizens should be prominently honored in connection with this universal garden.

But for the patient, vigilant, forceful and prolonged efforts of Arthur S. Bent and Henry O'Melvey the great enterprise might never have progressed beyond the stage of hazy dreams. The success-

Busy Days for Uncle Sam

(Predicted by George Matthew Adams)

ful initiation of the Los Angeles Botanical Gardens is the biggest single accomplishment to the credit of the Chamber of Commerce during its long and useful administration. The chamber, under the guidance of its president, Arthur S. Bent, put the foundation under this beautiful air castle.

Not, however, for its beauty alone has this botanical garden so far-reaching an appeal to Los Angeles, California and the whole United States. On the utilitarian side of the ledger it may cast up big figures more than enough to pay the whole expense of realizing the romantic vision. From Kew Gardens in London, at present the most complete plant emporium in the world, came the first rubber tree seedlings, grown after a series of experiments from seeds gathered from the Amazon Valley, that made possible the rubber plantations of the Straits Settlements, today the most profitable source of income possessed by Great Britain.

From the ideally located 800 acres along Mandeville Canyon may we not confidently expect a more miraculous showing even than that made by world-famous Kew Gardens?

WASHING ART

What has become of the old-fashioned chap who used to pucker up and whistle? He seems to have gone the way of the pug dog, the tidy that hung on the back of Aunt Tilly's rocking chair, the mauling-load shotgun and the ankle-length skirt. All the whiskers nowadays are professional or on the way to be.

Time was when every neighborhood boasted at least one man who scattered near-melody wherever he went. To be sure, his car wasn't always of the best and he had a way of mixing "God Save the Queen" with "Pop Goes the Weasel" at times which was confusing to the listener, but, anyhow, he whistled for the sheer joy of it. Nor did he object to criticism. If others in the vicinity found no charm in his melody, as sometimes happened, they were privileged to speak their mind as freely as they chose. But, whether they liked his roundelay or not, they listened to it just the same as long as they were within range.

An aged cobbler back in Indiana always whistled as he drove past into the leather in applying a pair of half-soles. His favorite tune was "When You and I Were Young, Maggie," and he had worked out a system by which he could tell, without looking, just how far the work had progressed, simply by listening to his own music. Every third note of the song indicated a tap of the hammer. When he had whistled the song through four times he knew the job was finished.

Once in a while a traveling man, known in those halcyon days as a drummer, dropped in and he usually wanted a pair of half-soles in a big hurry. Did the cobbler forego the pleasure of whistling at his task merely because the customer was in a hurry? He did not! He merely substituted "Turkey in the Straw" or perhaps "Dixie," which automatically increased the tempo and turned out the job in jig time, so to speak.

There was something cheery and wholesome and neighborly about the fellow who whistled, no matter how badly, and his passing is to be regretted. The sobbing saxophone, however, seems to have been too much competition.

POSE AND POISE

One of the chief executives of the American Federation of Women's Clubs says that pose makes poise and she figures that it is hard for a lady to have poise without being a little bit of a pose.

Copyright, 1927, by the Bell Syndicate, Inc.

COFFEE RESISTANCE

How much coffee resistance a human being may possess was pretty severely tested by a man named August Comstock of Pergus Falls, Minn., the other day. Comstock is reported to have drunk eighty-five cups of coffee, or a total of 31.25 quarts, in seven hours, thus bettering the record of one Streety of Texas by fourteen cups and wrestling from him the coffee-drinking championship of America.

People whose nerves are so affected by a few cups of coffee that they cannot sleep must have read of this remarkable feat with much interest, for the consumption of eighty-five cups of that beverage in so short a time is going it rather strong, though we are not informed by the dispatches just how strong the coffee was, as this important fact was carefully kept in the background by those conducting the contest.

It may have been that kind of coffee which the ancient rural dame refers to as "hot-water scald." Or it may have been the kind alluded to by unfeeling humorists as "boarding-house coffee." It looks like rain. One boarder remarked to another who was contemptuously scrutinizing his morning cup, "Yes," was the retort, "but it smells like coffee."

However, to drink in seven hours twenty-one quarts of anything is a distinct achievement, and to test one's coffee resistance in such a way as Comstock tested his—supposing that the coffee was coffee—is to have given a double challenge to the fate which almost any physician would say was in store for the person who would dare to indulge in excessive drinking of what Thoreau disdainfully termed "the muddy stimulant."

NOR SWITCHES

There are nearly 70,000 women in railroad jobs in this country and yet trains for women have long been out of fashion.

Little Help
By James J. Montague
Although I can't afford the price, I always purchase some device to help my golf and mend my score. The strap that keeps the head depressed. The new, far-flying, air-cooled ball. The fool-proof elastic vest—I get them all.

I have a meter for my wrist which keeps a tab on every clout (it also counts the strokes I've missed, the number of which I rather doubt.) I have an artificial tea which holds the pellet wall in view—Assisting to enable me. To follow through.

And so my back I need not strain When, faltering upon the brink Till I grow dizzy in the brain. The pill decides that it will sink; My spine I do not have to bend To lift it from the sunken cup—A club with a prehensile end Will lift it up.

And yet with every artful aid That thoughtful dealers can supply To help us players and their trade, My strokes still seem to go awry. In spite of all the stuff I've bought, My score grows larger day by day; I learn to play.

PEN POINTS

Fairy tale: The man thought out all of his beliefs for himself. Movies that talk will be fine unless we must call them the speakers. No Congress would dare tax incomes as gulibility does. This generation sorry, old man! Well, if the pup is a scrub, whose is the fault?

I was assessed so much for delinquency—so much for bonus—so much for interest, etc. They were very averse to answering any of my questions. I paid the delinquency in room No. 34—notice was sent from room No. 4. I was only one of many who went through the same thing. Now if the city is willing to help the public, as they say, will they please explain where that money went that they say they haven't? I contend they know nothing of it.

A TAXPAYER

This Old World Needs It
LOS ANGELES, Jan. 15.—(To the Editor of The Times.) The Times is noted for its many interesting departments devoted to public service, and not the least of these is the column reserved for "fox pup" letters on the editorial page.

These contributions are all more or less interesting, but occasionally there is one demanding a quick call for Dr. Watson and his needle, or for a man to take the case today, when one of the scribes or phantoms derided Will Rogers for his buffoonery in "The Times."

That letter almost equals one of Will Rogers' best jokes to date. Heaven knows this old world is full of running over with the serious stuff. Just a little puff, but there is some help, thanks to whoever is responsible for innocent jokes.

Anyone who cannot appreciate the funny side of such innocent nonsense, which has, for the most part, a truthful line running through it, should crawl into a hole and pull the hole in afterward.

STANLEY F. WIDENER.

CHANNEL CHAMPION

Dedicated to George Young
With never-failing soul, with tireless limbs, He plows a silver furrow down the sea.

Through ice-cold hours, through dawns and dark he swims, Braving a shoreless night's immensity.

There is no yielding now. He must swim on Through hours of sultry cold, grimly hearted, sure.

Youth will not fall him when all else is gone. He always had youth clean; he will endure.

His body is long weary as with years. Yet he plows on toward the friendly lands.

Across the mocking kelp—the shore, the cheers. He battles on with dogged, tearing hands.

Over the conquered waters sweeps his name. Youth had not won had youth not been so game.

LETTERS TO

The Times

(Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.)

Eloquent Graybeard

LOS ANGELES, Jan. 15.—(To the Editor of The Times.) Even so far back in the history of our country as 1804, when President Jefferson bought the great prize of Louisiana from France, there were a number of play-headed, picaresque, peasant politicians who strenuously objected to this real-estate deal by the President. The same class of obstructionists were in evidence when the United States took over New Mexico, Arizona and California. One of the same brand of political jellyfish in the Democratic party following the Spanish-American War, and now the kind stars of the entire combined lot of national dwarfs are strenuously opposing the Republican administration in its effort to uphold the dignity and rights of the country in Mexico, Nicaragua, China and the Philippines.

To these eloquent graybeards who swim backward—like Senator Borah and his nondescript political rubber stamps, it appears, apparently, the natural thing for this great country to submit meekly to being kicked and insulted by any two-by-four nation, which presumes upon our long-suffering patience to spit in our face, figuratively speaking, to denounce and malign us to their heart's content, then swell out their chest and boast: "See what we did to the cowardly Yankees!"

It's lucky we got Alaska and Hawaii before Senators Borah, Johnson, La Follette, etc., had anything to say about it. Why doesn't Big Borah introduce a resolution in the Senate to give back California to Mexico?

ARTHUR LORING MacKAY.

Jackie in Office

LOS ANGELES, Jan. 15.—(To the Editor of The Times.) This much-talked-of "The city assisting the property owners from keeping out of the hands of the assessor's shark" is rather amusing to me, who had the experience of being taken in by them.

I would like to ask several questions. Who employs these clerks in the City Hall, if the city does not?

Who is responsible for their acts if the city is not?

Why is the city so ignorant of it all?

I was assessed for a delinquency over which I had no control—the ornamental street lighting of Hollywood. The notice of the assessment was sent to the office July 31—I have the envelope bearing the date and I was delinquent the 15th of July.

I was assessed so much for delinquency—so much for bonus—so much for interest, etc. They were very averse to answering any of my questions.

I paid the delinquency in room No. 34—notice was sent from room No. 4. I was only one of many who went through the same thing.

Now if the city is willing to help the public, as they say, will they please explain where that money went that they say they haven't? I contend they know nothing of it.

LARGE GAIN IN TOURIST INQUIRIES

**All-Year Club Has 1915
Answers a Week, or 125
Per Cent Increase**

In the week ending last Saturday 1915 families in all parts of the United States made inquiry of the All Year Club about Southern California. The total of inquiries to the 1915 inst. for the fall and winter advertising was 135 per cent greater than for the corresponding period a year ago. Each of the club inquiries represents a family, and when it is realized that it is getting inquiries at the rate of 200 a day the national interest in Southern California can be deduced.

"We could almost be content," said C. G. Milham, executive secretary of the National Hotel Association, "if it were the only one. But the intangible results, the indirect result, is much greater. Millions of people are made aware. Millions of persons see our advertising, many thousands of them are made aware of the fact that we are not alone. They are made aware that we intend them to come. They come direct and without inquiry. The indirect result is that we are making it possible for us to make year-to-year comparisons. The interest shown is enough to make it possible for us to be selected in the hotels. They are fully selected in the fact that all available space is taken up by our visitors. And they still are coming at the rate of several thousand a day. The money that is being made is the money a visitor puts into the commercial stream in Southern California. It is the money that goes to the theaters, restaurants and all other purveyors of the necessities of life. There is the finest business we can have. It is the reason that we are able to our current wealth as against an exchange. It is money created and

Ten Days in Jail Given for Theft of Newspaper

Every morning for the last week when Dean Wood went out to the front porch to get his copy of the Times there was no paper. The sit-

"I had to walk several blocks before I could find a boy who hadn't sold all his copies of *The Times*," he said in Municipal Judge Richardson's court yesterday, in prosecuting a petit larceny complaint against Melvin R. Smith.

"It is a serious offense to keep a man in ignorance of the important events of the day by taking his newspaper," said Judge Richardson, sentencing Smith to serve ten days in jail.

COOKING HINTS

Doughnuts

| | |
|---------------------------|------------------------------|
| 3 tablespoons PANCRUST | 3 cups flour |
| 1 egg, beaten | $\frac{3}{4}$ teaspoon salt |
| $\frac{1}{2}$ cup sugar | 4 teaspoons baking powder |
| $\frac{3}{4}$ cup milk | 1 teaspoon nutmeg |

 GRAM PANCRUST: add

beat egg and sugar. Stir in milk. Sift flour, salt, baking powder and nutmeg together and add to mixture. If the dough is not stiff enough to roll, add additional flour. Roll out on floured board and cut. Fry in hot, deep fat until a golden brown. Place on brown paper to absorb the grease and sprinkle with powdered sugar.

PANCRUST

CRABS AT BEING CALLED SHRIMP

Husband's Epithet Iks Wife More Than Staggering Daily Program

"Why did I marry a little shrimp like you, when I have so many women of my own size," was a favorite taunt of Savino Orentile, his wife, Margaret Orentile, declared in a complaint for divorce filed yesterday.

NATIONAL PARK PROGRAMS SET

Large Hotel at Yosemite to be Opened in April

Dedication of Additions to Sequoia in August

Grand Canyon to Celebrate Rim to Rim Trails

Three national park events of great importance to the West, and particularly Los Angeles, are on the program for the coming summer, according to Stephen T. Mather, director-general of National Parks.

Ex-Policeman Convicted of Liquor Sales

His one-cab taxi company branded by police and Deputy City Prosecutor

Edward as a cloak for his activities as a bootlegger, with a short of liquor at 600 South Main street, Emil M. Scott, former Los Angeles policeman, yesterday was found guilty on charges of sale and possession by a jury in Municipal Judge Stafford's court.

What Women are Doing

By Myra Nye

Dr. Annie Besant will speak on "The New Child Type in California," Friday, the first of the series of lectures at the Los Angeles Club at 1 o'clock.

Evening Apparel for the Opera Season

Modes Which Appropriately Express Appreciation of this Season of Artistic and Social Activities

The importance of dress is paramount in the preparation for the Opera Season. The Broadway's French Room is replete with lovely things of charming individuality, which will be subtly flattering to the wearers.

Evening Wraps

Stunning lines are shown in the wraps of rich velvets, and exquisite metallic brocades. Wraps which are enhanced by soft fur collars.

Evening Frocks

\$25 -- \$35 -- \$45. The alluring new shades approved for formal evening wear become still more lovely in the exquisite fabrics...

Evening Shawls

\$12.50 to \$82.50. The vogue for shawls has prompted the assembling of rich, lovely colors and designs of varied appeal.

Legion Shies at Nominating Dry Law Assistant

Refusal by the American Legion to recommend anyone for assistant Federal prohibition administrator was made yesterday in a letter received by Administrator McKeen from L. V. McKeen, commander of the Los Angeles County Interpost Council.

SIREN WARNING GIVEN PUBLIC

Police Ordered to "Arrest" all Drivers Who Fail to Stop at Sound of Horn

The Police Commission yesterday instructed Chief Davis to conduct a crusade and arrest all motorists and streetcar operators who fail to stop immediately when they hear the siren of police and fire vehicles.

Judge Westover Urged to Stand for Re-election

Yesterday was a red-letter day in Judge Westover's life, 52nd, because it was the fifty-sixth anniversary of his birth; second, because a committee of members of the Los Angeles Bar Association stingingly celebrated the occasion.

MAIL CARRIER HELD ON CHARGE OF THEFT

The mystery of numerous missing packages is believed by postal inspectors to have been solved yesterday by the arrest of Frank Stewart, mail carrier at the Arcade Station, on charges of stealing two automobile tires.

DR. LOVELL TO GIVE SERIES OF LECTURES

A series of health lectures free to the public will be given at Burdette Hall, Fifth and Olive streets, through the present month and February by Dr. Philip M. Lovell, M.D., president of the Los Angeles Medical Association.

W.C.T.U. MEETING TOMORROW

Los Angeles W.C.T.U. will meet tomorrow at 2 p.m. in the First Methodist Church, Eighth and Hope streets. Law enforcement will be discussed by Mrs. Emma Mueller.

DELAY AGAIN GRANTED TO SCREEN MAN

Lehrman Asks Continuance of Trial on Charge Brought by Miss Sebastian

Once again the case of Henry Lehrman, motion-picture director, accused of annoying Miss Alta Sebastian, niece of ex-Mayor Sebastian, has been continued, the action yesterday by Municipal Judge Wilson marking the fifth or sixth time the case has failed to come before the court for final decision.

Judge Westover Urged to Stand for Re-election

BEN HECHT IN THE MOVIES

Authors of Pulse-Bounders Signs to Write for Lasky;
Monty Banks Returns from Sad Visit to Italy;
Stunt Flyer Tied Up by Universal

BY GRACE KINGSLEY

It looks as though the Ben Hecht

fans, whose number is legion, will have to content themselves for some time to come with looking at

the author's stories on a screen, instead of reading them in books.

It was announced yesterday by B. P. Schulberg that Hecht has been signed on a year's contract to write original stories exclusively for Paramount.

Hecht seems to be one of the few popular writers who are planning to strike the picture spirit.

Hecht was brought west to write one story, "Underworld," for Paramount. That proved such a knockout in script form, according to Schulberg, that Paramount simply wouldn't let Hecht go.

On account of the excellent work which Hecht did on "Underworld," he has been given the feminine of George Bancroft, one of the best character actors in the business.

Arthur Haddon will direct the play, with Josef von Sternberg setting the scene and photography and just to round out the Who's Who record, Hector Turnbull will supervise the production.

Hecht declares he has enjoyed writing for the movies and is already planning his second story for the screen.

Monty Banks Comes Home

After a six weeks' absence, during which he made a flying trip to Italy, paid a brief visit to Paris, stopped in London to spend New Year's

Day with friends, and spent several days in New York, Monty Banks arrived in Hollywood Monday morning and made his headquarters on the studio floor of the Ambassador.

He was met by the studio staff on the script for his first shooting assignment, which is scheduled to begin early next week.

Monty's trip abroad was occasioned by the death of his mother and the necessity of making provision for the care of his aged and invalid father.

Monty's trip abroad was occasioned by the death of his mother and the necessity of making provision for the care of his aged and invalid father.

NEWS OF SOUTHERN COUNTIES

RECORD CITRUS SEASON ENDED

Anaheim Orange Crop Worth \$1,132,843

Co-operative Association Makes Report

More Than 1100 Cars of Fruit Shipped

ANAHEIM, Jan. 18.—Revealing a year's business that was \$4.11 per cent greater than the year before and brought returns to Anaheim and district estimated at more than \$1,100,000, the annual report of the Anaheim Co-operative Orange Association, was presented to the stockholders at the annual election meeting this afternoon.

Fruit sales during this period totaled in the gross \$1,503,070.05, growers receiving \$1,132,843.89 in pool distributions and approximately \$100,000 being spent locally for salaries and other expenses incidental to the handling of the crop, the report revealed.

Closing of the books for the year revealed a total of \$54,482.26 to be refunded to the growers on the per-box packing and selling charges of the year. This refund is to be made at the rate of 12 cents per packed box.

Shipments during the year were the largest ever handled by the association, totaling 114,889 cars of 900 boxes to the car, which is 523.5 cars or 84.11 per cent more than was shipped during 1936.

The increase also came as a result of the efforts of Supervisor Fred Beatty from this district, who put the fair before the supervisors in its true light, as a Los Angeles county fair instead of a Pomona fair as it was previously considered.

The increase is also taken as a tribute of the supervisors to the rapidly increasing volume and size of the fair. As a result of this action directors are making plans for enlarging the fair this year and a movement is on foot to provide permanent buildings to replace the tents that have been used in years past. This will come gradually, however, as finances permit.

Hope for additional appropriation from the State were bright today as a result of the efforts of State Senator Obedt Taylor, according to J. M. Paige, local Chamber of Commerce secretary, who stated that Senator Taylor had prepared an amendment to bill No. 4008-B to clarify the legality of fair appropriations by counties to eliminate red tape in connection with county support of fairs, while he also stated that provision of \$75,000 biennial appropriation by the State for distribution among county fairs was a provision of amounts pro-rated in accordance with the amount of premiums paid by each last year is expected to develop at Sacramento, Pomona received \$60,000 from such a fund last year, while the year previous it received \$40,000.

Reason for the decrease in 1936 being the fact that there were more fairs to share in the fund.

GOOD SEASON IN TORRA LINDA DISTRICT

TORRA LINDA, Jan. 18.—Returns to members of the Torra Linda Citrus Association for the 1936 crop aggregated \$475,812.27, the annual report presented by Phil W. Damon, manager, disclosed. The amount handled by the Torra Linda house amounted to \$265,354.11 of the foregoing to the balance being divided into \$200,340.97 for the Torra Linda crop and \$141,781 for grapefruit.

Shipments by house and cars were announced as follows: Lemons, 107,731 boxes, 268 cars; Valencia, 65,036 boxes, 163 cars; grapefruit, 12,615 boxes, three cars, making 184 cars all together.

Damon reported a most successful year for both the orange and lemon crops and he commented that the prices obtained for shipped weight were "fairly satisfactory."

Speakers included Dale M. King, manager of the Northern Orange County Fruit Exchange, and J. T. Powell, lemon sales manager for the California Fruit Growers' Exchange. Directors of the organization were re-elected. They are V. O. Dillingham, W. B. Moore, E. Albertson, D. J. Post, W. H. Wickert, J. Jones and W. Miller. Manager Damon and Secretary P. J. Ton also were re-elected.

Money Sought to Save Test Farm in Valley

EL CENTRO, Jan. 18.—Imperial County Farm Bureau has asked Assemblyman M. D. Witter of Brawley to seek a special appropriation at the next session of the Legislature for the maintenance of the State experimental farm at Meloland.

According to members of the County Bureau the State Department of Agriculture omitted the Imperial test farm from its budget for the coming year without giving local people an opportunity to protest. This will result in the closing of the experimental station unless a direct appropriation can be obtained from the Legislature.

In a letter to Sen. Robinson, president of the Farm Bureau, Witter expressed confidence that the money would be voted as the need for agricultural research work in Imperial Valley is generally recognized and recognized.

The farm bureau's directors this week elected C. F. Burton secretary-manager of the County Bureau to succeed R. D. Irvine, who recently resigned.

HOTEL HAS NEW MANAGER

VENTURA, Jan. 18.—Directors of the Hotel Ventura, which was announced today that Earl Busby, Santa Ana hotel man, has taken over the management of the Hotel Ventura. Busby supplants Gus A. Berg, who is under a grand-jury indictment, charged with contributing to the delinquency of a minor.

SANTA ANA PIONEER DIES

Mrs. Martha C. Hill Was Mother of First White Child Born in City

SANTA ANA, Jan. 18.—Mrs. Martha C. Hill, 81 years of age, mother of the first white child born in Santa Ana, died in her home here today. Mrs. Hill was the sister of Mrs. W. H. Spurgeon, Sr., who was one of the earliest residents of Santa Ana. She played an important part in the founding of the city and in its early history. Her death came peacefully after a short illness.

A native of Missouri, where she was born on December 1, 1855, Mrs. Hill when a girl came to California with her family in 1861, just as the Civil War was starting. Robert English, her father, moved his family, consisting of four girls and eight boys, across the dangerous prairie, finally arriving at a place which is now Watsonville after a long and tedious journey in a primitive schooner drawn by four mules.

It was at Watsonville that Mrs. Hill was married in 1868. Shortly afterward Mrs. Hill and her husband removed to Southern California, locating in Anaheim. A few months later they located in Santa Ana.

It was in 1869 that Santa Ana was

MORE CASH FOR POMONA FAIR

County Supervisors Grant \$50,000 for Exhibit

Great Increase Result of Increasing Fame

Larger Appropriation from State Expected

POMONA, Jan. 18.—Action of the County Supervisors in appropriating \$50,000 to the Los Angeles County Fair for the coming exhibition at the fair grounds here in September, was being received here today with hearty approval, reminiscent as it does an increase of \$40,000 over the \$10,000 appropriated last year.

The increased amount came as a result of the efforts of Supervisor Fred Beatty from this district, who put the fair before the supervisors in its true light, as a Los Angeles county fair instead of a Pomona fair as it was previously considered.

The increase is also taken as a tribute of the supervisors to the rapidly increasing volume and size of the fair. As a result of this action directors are making plans for enlarging the fair this year and a movement is on foot to provide permanent buildings to replace the tents that have been used in years past. This will come gradually, however, as finances permit.

Hope for additional appropriation from the State were bright today as a result of the efforts of State Senator Obedt Taylor, according to J. M. Paige, local Chamber of Commerce secretary, who stated that Senator Taylor had prepared an amendment to bill No. 4008-B to clarify the legality of fair appropriations by counties to eliminate red tape in connection with county support of fairs, while he also stated that provision of \$75,000 biennial appropriation by the State for distribution among county fairs was a provision of amounts pro-rated in accordance with the amount of premiums paid by each last year is expected to develop at Sacramento, Pomona received \$60,000 from such a fund last year, while the year previous it received \$40,000.

Reason for the decrease in 1936 being the fact that there were more fairs to share in the fund.

Rancher Taken on Charge of Stealing Fruit

CLAREMONT, Jan. 18.—A large truck laden with 1800 boxes of fruit was seized by a patrolman on the San Bernardino Freeway near the Claremont interchange. The driver, a man named [Name], was taken to the Claremont police station on a charge of stealing fruit. The truck was found to be loaded with boxes of fruit, many of which were marked with the name of the Claremont Fruit Growers' Association.

The driver, a man named [Name], was taken to the Claremont police station on a charge of stealing fruit. The truck was found to be loaded with boxes of fruit, many of which were marked with the name of the Claremont Fruit Growers' Association.

VISALIA CHILDREN GET THRIFT PRIZES

VISALIA, Jan. 18.—National Thrift Week is being enthusiastically observed in Visalia and it is believed that the spirit of "thrift" in the young of the city will result in possible awarding of twenty prizes to grade and high-school students, a feature of the second day of the program.

These awards were made for merit in the contest for the poster of Agriculture omitted the Imperial test farm from its budget for the coming year without giving local people an opportunity to protest. This will result in the closing of the experimental station unless a direct appropriation can be obtained from the Legislature.

In a letter to Sen. Robinson, president of the Farm Bureau, Witter expressed confidence that the money would be voted as the need for agricultural research work in Imperial Valley is generally recognized and recognized.

SANTA ANA PIONEER DIES

Mrs. Martha C. Hill Was Mother of First White Child Born in City

SANTA ANA, Jan. 18.—Mrs. Martha C. Hill, 81 years of age, mother of the first white child born in Santa Ana, died in her home here today. Mrs. Hill was the sister of Mrs. W. H. Spurgeon, Sr., who was one of the earliest residents of Santa Ana. She played an important part in the founding of the city and in its early history. Her death came peacefully after a short illness.

A native of Missouri, where she was born on December 1, 1855, Mrs. Hill when a girl came to California with her family in 1861, just as the Civil War was starting. MESSENGERS FURNISH OWN POWER

Naval Men Roll Over Cement Walks in Record Time

The Most Practical Messenger Motivation

The United States Naval Training Station and Marine Corps base at San Diego have officially adopted roller skates and skis for the regular vehicles for departmental messengers. The roller skates are practical because of the narrowness of the corridors and the fact that the messenger can "skate" down the long corridors and into the offices under full speed without waste of time.

BEACH GIRL PARADES ON BLACK LIST

Councilmen Taboo Display of Beauties But Boost for Channel Swims

LONG BEACH, Jan. 18.—Bathing beauty parades with their resulting display of blond and brunette pulchritude are taboo in Long Beach, so far as Councilmen Filmore Condit and John Arnold are concerned. Both City Fathers are on record as to that. But a Catalina Island channel swim for women from Long Beach to the island or vice versa is something else again. Not only are these two better foes of the land type of bathing beauty in favor of such an event, providing it brings fame to Long Beach, but Councilman Arnold today advocated the appropriation of a sum of money from the city treasury to promote the swim.

The plan, originating here and having the sanction of Messrs. Condit and Arnold, includes the proposal that Long Beach make up a fund of \$10,000 to be added to the \$15,000 which William Wrigley, Jr., offered to the woman swimmer who finished the recent channel marathon, thus making a shilling mark of \$25,000 for the world's best female swimmer to shoot at. This winning contestant would face equally well with George Young, Canadian youth who romped away with the male title in the recent channel swim. Hearty approval of the plan was given by Councilman Condit, who declared that such an event would offer enormous advertising value for Long Beach, also for Catalina Island and Southern California generally.

No appropriation could be made from the city's funds for this year, which began on July 1, and the swim would be held either in July or August.

The councilmen were firm in their belief that the swim should be held in the summer time or not at all. At least \$40,000, including the proposal, would come from the city, with the Long Beach Chamber of Commerce and other organizations providing the remainder, according to the plan. A condition of the swim would require the winning swimmer to land somewhere within the city limits of Long Beach, provided the swim is started at Catalina Island. The plan has not been submitted as yet to William Wrigley, Jr., and there is no assurance, it was said, that he would accept the plan for the woman swimmer who finished the recent water derby and while was not won is still available.

Body of Missing Teacher Discovered

SAN DIEGO KINDERGARTNER BELIEVED TO HAVE KILLED SELF

SAN DIEGO, Jan. 18.—The body of Irene Curtis, young San Diego kindergarten director, who has been missing from her home at the Casa Loma Hotel for more than three weeks, was found shortly after noon today by Louis Chauvaud, life guard, in the kelp bed about a mile off the coast of La Jolla. Identification of the body was made by police, who are inclined to believe the teacher committed suicide.

Three days after the woman's mysterious disappearance from her hotel room, a hat, coat, purse and several articles of clothing were found on a boulder almost at the water's edge just south of the cove, La Jolla. The plan was to find the woman's body and immediately searched the beach. The quest lasted until today.

Cornier Schuyler Kelly was called and left for La Jolla to take charge of the case.

COMMUNITY CHEST PLANNED

HANFORD, Jan. 18.—Plans are being formulated by the Hanford Women's Club, Merchants' Association and Chamber of Commerce for the establishment of the Community Chest plan of dealing with benevolence in Hanford.

INSTALLATION IN MASONRY

Lodge Members Witness Unusual Ceremony at El Monte; Meeting Open to Public

EL MONTE, Jan. 18.—Seven years ago John Sotow conferred the Third Degree of Masonry upon his son, Charles T. Sotow. Last February as Eminent Commander of the Alhambra Commandery No. 207, Sotow conferred the four degrees of Knights Templar upon his son, and on Monday he installed his son as Worshipful Master of Lexington Lodge No. 104.

Installation of officers was held at the Masonic Temple at 6 o'clock. Officers installed were Charles H. Sotow, Worshipful Master; John P. Caruthers, Senior Warden; George Armstrong, Junior Warden; James D. Dobson, Treasurer; George Perry Chapman, John Weaver, Senior Deacon; Maurice D. Curtis, Junior Deacon.

CITY VISIONS

Companies After Long Beach Oil Properties

Leases Being Sought by Several Concerns

Council Names Committee to Report on Offers

LONG BEACH, Jan. 18.—Long Beach, the city which won worldwide fame through the millions of dollars in royalties which poured into its municipal coffers from oil royalties on city lands in the Signal Hill field, may repeat its good fortune, it was revealed here today when the City Council was apprised of offers made to the city by oil companies now operating in the new and rich field just east of Long Beach.

Fifty-thousand dollar bonuses were dangled before the eyes of the City Council today by City Manager Henderson, who read offers from various oil companies, including the Standard Oil Company, the Western Oil and Refining Company and the California Petroleum Company, to develop the municipally owned strip of land north and east of the Lagoon extending southeasterly from Recreation Park. The land runs toward the right recently uncovered by the Lagoon interests, where wells continue to produce several thousand barrels of oil per day.

WILL TAKE TIME

The City Council, it was said, will not rush unadvised into any oil lease agreement but a committee, composed of Councilmen Condit, Tucker and Callahan, City Manager Henderson and Supervisor Taylor, was named to look into the offers and report back to the Council, with a recommendation. The offer came from the Standard Oil Company, the Western Oil and Refining Company and the California Petroleum Company, to develop the municipally owned strip of land north and east of the Lagoon extending southeasterly from Recreation Park. The land runs toward the right recently uncovered by the Lagoon interests, where wells continue to produce several thousand barrels of oil per day.

MYSTERY OF GRAVE STILL UNSOLVED

Fenced-in Excavation in Hills Yields Nothing But Dirt to Investigators

RIVERSIDE, Jan. 18.—The mysterious grave continues to be a grave mystery.

Apprised by a hunter that an impromptu cemetery with a single plan had been stumbled upon in an obscure portion of the hills near Persimone, a delegation of county officials yesterday made their way through the foothills of the back country and finally arrived at a site where appeared freshly turned earth, an area of approved grave dimensions with a rude fence inclosure.

Two prisoners, who had been brought along by Deputy Sheriff A. W. Dodd and Charles Worcester, were given shovel and instructed to dig for the body.

Coroner C. B. Dickson sat in the shade of a huge rock and kept a watchful eye on operations, ready to jump on the body of human remains, or to appraise the value of gems or pieces of jewelry.

Five feet down and the tense watchers crowded about the pit as the shovel struck sparks from a hard substance. "Rock," moaned the Coroner. "No body and no business for me," he started to climb into his car. The digging revealed nothing other than loose earth, evidently excavated some weeks ago and thrown back again.

PASADENA HOLDS UP PAY RISE

Firemen Won't Get Increase Until Money is Found, Say City Directors

PASADENA, Jan. 18.—Despite the fact that the people of Pasadena voted last November to give the firemen of the city a salary increase, to become effective the 1st of January, the Board of City Directors, by a 4-0 vote, today refused to authorize City Manager Orsborn to put the increase into effect when he signs the January pay checks at the end of this month.

The directors' meeting was marked by considerable bitterness on the part of the disgruntled directors, the minority contending that the vote to put the increase into effect should be passed and the money found afterward.

The four majority directors, F. B. Cole, Loomis, Wadsworth and Thompson, held, however, that the budget for the fiscal year adopted last June makes no provision for the added expense, and that the salaries cannot be paid until the cash has been provided from a legitimate source, election or no election.

After a vigorous exchange of personalities and the defeat of a motion offered by Director Wadsworth to take the money acquired by the sale of the El Monte farm, the question was left where it was found—in the air. The firemen are still waiting for the money and so are the directors. Meanwhile, the end of the month is drawing nigh and nobody knows what is going to happen.

HEAD OF PASADENA HIGH SCHOOL QUIETS

PASADENA, Jan. 18.—William F. Ewing, principal of Pasadena High School and Junior College since 1920, today handed his resignation to the Pasadena Board of Education, and announced that he has accepted the position of assistant superintendent of schools in Oakland, Cal. Ewing issued a statement today expressing regret at leaving Pasadena, and thanking his fellow-workers for their cooperation during his term of office. He will remain at the local post until the end of the school year in June. He is now widely known in California school circles having held the position of principal of the San Gabriel High School in Los Angeles.

MEADOW PARK JOINS TORRANCE

TORRANCE, Jan. 18.—The citizens of Meadow Park voted today for annexation to Torrance, the county being 97 to 50. The tract comprises 4000 acres with a mile of ocean frontage between the Palos Verdes Hills and Redondo Beach.

RUNNER HIT BY DISK THROWER

High-School Boy's Skull is Fractured in Unusual Accident

SANTA MONICA, Jan. 18.—While running in a time trial around the Santa Monica High School track yesterday afternoon, Tom Freeman, 18-year-old athlete, a senior at the school, was struck and seriously injured by a disk hurled by a mate on the track team. Other athletes screamed a warning as the heavy, whirling disk soared toward Freeman, but he failed to heed them and crumpled to the track when struck. He was taken to St. Catherine's Hospital with a fractured skull.

SAN JOAQUIN FIGHTS LOSS OF GAS TAX

Supervisors from Eight Counties Send Protest to Young on New Plan

FRESNO, Jan. 18.—Determined opposition to any change in the distribution of gasoline tax money that would take away any part of the sum now received by counties of the State and an appeal to Gov. Young to appoint San Joaquin Valley representatives to the State Highway Commission were voiced today by the San Joaquin Valley Supervisors Association, representing eight counties, in session here. The withdrawal of the counties' share of the gasoline tax funds, proposed before the State Legislature, occupied the attention of the supervisors in their annual business session. They were addressed on the subject by Paul Medley, general secretary of the Automobile Club of Southern California, who said that his organization, representing thousands of motorists, will throw its entire influence against any such change.

Feeder roads constructed and maintained by the counties, are as essential to the State's development as the State highways, Medley said in discussing the fact that the counties will be forced to vote bonds or levy additional district taxes to cover road maintenance if the gas tax funds are withdrawn.

In connection with the resolution favoring San Joaquin Valley representatives to the State Highway Commission, the resolutions committee did not cut out a resolution recommending that the City of Fresno, former veteran supervisor of Fresno county, for the position. John and L. A. Harnes, active members of the California State Automobile Association and Fresno real estate men, are prominently mentioned as candidates for the commission. Resolutions were also adopted favoring the collection of a mobile license fee by the counties and reaffirming the association's approval of an addition of a penny to the State gasoline tax.

MONROVIA TO HAVE OWN DRY ORDINANCE

CITY WANTS TO BE ABLE TO PROSECUTE VIOLATORS OF PROHIBITION

MONROVIA, Jan. 18.—A new city ordinance, under which the city hopes to prosecute violators of the prohibition law, was given its first reading before the City Council last night. Police authorities have been compelled to turn over to county or Federal authorities all liquor violation cases.

The ordinance would prohibit the possession, manufacture, transportation, sale, exchange or giving away of any liquor to be used for beverage purposes containing three-fourths of one per cent alcohol and prohibits the operation or possession of a still, or any part of a still, for the distillation of alcohol.

The city of Monrovia lost \$7000 in fines a year ago when two cases growing out of still raids were thrown out by the Superior Court on a ruling that Monrovia's ordinance was unconstitutional.

HOTEL LEASE TAKEN

SAN FERNANDO, Jan. 18.—M. G. Gibson, who has owned the five-year lease on the new hotel in the Bank of San Fernando Building, Fort Street and Brand Boulevard, and takes possession at once, according to Mrs. Oda Paulson, attorney for the bank, who is the owner of the twenty-six rooms located on the two floors above the bank. The entire building was completed last summer at a cost approximating \$180,000.

JUDICIAL COLD FEET PASADENA

Architect for Santa Barbara Courthouse Foot Warmers in Building Plans

SANTA BARBARA, Jan. 18.—Superior Judge of the Santa Barbara County Court, J. H. Moore told the Supervisors that in the new Courthouse building the wants of unborn jurists as well as those of the present generation are the more immediate factor by providing foot warmers in the building. But there will be no air strikers in the building all agreeing that Santa Barbara air is good enough to breathe without adulteration.

Seven hundred delegates from nearly every city and town in California will attend the State convention of the Building Trades Council and various conferences in Santa Barbara in March. It was reported at a meeting between representatives of the council and the secretary of the Chamber of Commerce. The conference was called for considering ways and means for caring for the convention.

County Supervisors yesterday recommended that the county motorcycle traffic squad should be placed under State control at the earliest possible date. They instructed the

Defeated Seal Beach Accuses Trustees

Says They Counted Votes at Recall Election

Suit Asks Court to Annul Council Resolution

SANTA ANA, Jan. 18.—(AP)—A time trial in the trial of the Seal Beach trustees, who were charged with counting the votes at the recall election, was held yesterday.

The trustees, who were defeated in the election, are accused of counting the votes in a way that would favor their own interests.

The suit asks the court to annul the council resolution that authorized the trustees to count the votes.

QUIN LOSS TAX

from Eight to Ten Plan

Determined on the distribution of money that part of the sum of the State of California.

Young to appeal the decision.

The trustees, who were defeated in the election, are accused of counting the votes in a way that would favor their own interests.

The suit asks the court to annul the council resolution that authorized the trustees to count the votes.

SCIOIS WILL ORGANIZE INGLEWOOD

Institution of Fortnightly Takes Place Saturday Night

INGLEWOOD, Jan. 18.—(AP)—The new organization of the Ancient Egyptian Order of the Sphinx, known as the Inglewood Chapter, was organized yesterday.

The organization is a branch of the larger organization in Los Angeles.

The first meeting of the chapter was held yesterday evening.

MILTON SILLS, STARR GETS TRAFFIC TICKET

OLENDALE, Jan. 18.—(AP)—Milton Silles and Starr were cited for a traffic violation yesterday.

The citation was issued for a violation of the traffic laws.

The citation was issued by a police officer.

L COLD FEET PASS

Santa Barbara Courthouse Includes Warmers in Building Plans

Jan. 18.—Superior judge of Santa Barbara County, need not suffer from colds of winter, as the new courthouse will be equipped with warmers.

The warmers will be installed in the building.

The warmers will be installed by the contractor.

CENTENARIAN ISSUES JAZZ DEFINITION

Sure He Can Outdo All of Tin Pan Alley

Still Can Tickle the Ivories

Left to right—James Goss, Calista M. Cole at piano and G. B. Goss.

IT'S just as well for Irving Berlin and other Tin Pan Alley composers that Calista M. Cole of Pasadena has passed the century mark.

Calista M. Cole, a pianist, is known for her musical talent.

She has been playing the piano for many years.

GEOLOGISTS TO MEET HERE

Cordilleran Section of National Society Convenes Next Week at Southern Branch

Noted geologists for all parts of the western States will be in Los Angeles January 28 and 29, when the annual session of the Cordilleran Section of the Geological Society of America is to convene on the campus at the University of California, Southern Branch.

This will be the first time the Cordilleran Section, composed of representative geologists from States west of the Rocky Mountains, has held its meeting in this city.

SEWER DEAL WITH BURBANK PROPOSED

The Board of Public Works has recommended to the City Council that a contract be made with the city of Burbank to permit the construction of a sewer line through Burbank to the city of Los Angeles.

The contract would allow the city of Burbank to build the sewer line.

The contract would allow the city of Los Angeles to use the sewer line.

WOUNDED OIL MAN BETTER

Grover Lawler Still Keeps Secret Name of Blond Young Woman He Says Fired Shots

Swift recovery was predicted yesterday for Grover Lawler, wealthy oil operator, who on Monday night was struck by a bullet in the chest.

Lawler was hit while walking in front of the Grauman Court.

The bullet was fired from a distance of about 100 feet.

SMALL CLAIMS MAKE LARGE NOISE

Many Mixups Mark Reopening of Minor Suits Court After Lapse of Year, But Judge Willis Clears Docket With Fast First Session

(Times Staff Writer's Report)

Without a blare of trumpets but at times with considerable noise as litigating parties attempted to find their way all at the same time, the small claims court—the legal friend of the poor man—was re-opened yesterday.

The court was re-opened after a one-year lapse.

Judge Willis cleared the docket with a fast first session.
